## A Memorial To Be Treasured

**T**HIS record is intended as a memorial which will place in the possession of the church an authentic history of those who have helped to guide its destiny. To be of greatest use the information recorded should be accurate, the tributes honest, and the preservation of the record book assured.

**I**N instituting this record we recommend that the appeal be made as widely as possible. Give every family a chance to list names which should be included. Search the church records. Where any have died without kin ask some organization or individual to sponsor the name and see that it is placed in the memorial book. The letters, envelopes and other literature which you receive with this system should be used in making the appeal. It has been tested to that end.

**A**FTER the book has been dedicated at an appropriate service it may be left for a few weeks in the foyer of the church for observation. Then it should be placed with the permanent records of the organization. \*Once each year, at a special service it can be opened for new entries. Many churches already have an All Soul's Communion once a year<sup>1</sup> for paying honor to those who have died during the year. This book fits in well with the purpose of that service.

**W**ITH the passing of the years it will grow in sentiment and become one of the most prized possessions of your church.

\*When the Book of Golden Memories is placed in the vault or other place for preservation have the key to binder tied to it, thus, eliminating possibility of loss.

Hello girl its time to have a talk  
It's been awhile since we made the long lonely walk  
I found your messages in several little places  
But others may have evaded among the pictured faces

We made the trip home without much of a pitch  
But you request was changed due to Billy's little hitch  
Family and friends met to pay respect and remember  
Both there and here later; Love is the word this November  
Love You
