The lounge room has been placed in the Library Building to furnish a place for the boys to smoke and read, and all boys who use it are asked to respect the furniture.—Campus Chat.

Back in the twentieth century, the Yuma Indians did not have any presents to wear in the winter time. According to Dr. C. T. Neu, the Indian carried with him a burning stick which he applied to those parts of his body the coldest.

The Leap Year Dance, which was the subject of a great deal of discussion on the hill last week, was a big success. Statistically its success is measured by the record-breaking attendance of seventy boys and one hundred girls, which seems to show that many of the girls have dollars who never have dates for the number of their attendance on the dancing. The boys, too, got a break, for many of those who had stayed at home for lack of funds or various reasons were there in a big way and their attendance on the dancing dances seems practically guaranteed from the way they seemed to enjoy things. In fact rumors are heard around the campus, and from even more reliable sources, that a movement is being started to make these dances more frequent, perhaps even as frequent as the more conventional type.

Some of the boys who have slipped for the first time the sweet secret of feeling their own popularity seem to want a deeper draught and will never be satisfied to go back to the established type of dance, since they must prefer to have their flock of admirers come tag them, then to chase all over the floor in search of a smooth dancer. However, those who didn't get such a rush are clamoring for the establishment type of dance where, if a boy is found standing against the wall, it is because he placed himself there rather than because someone dumped him there on the thin pretense of going off for punch.

Whether another Leap Year Dance is ever given, the matter is not, the dance Monday night will go down in the history of this school as one of its most successful social affairs.—College Star.

Paddies will try around the Green Mountains on Misses campus for the next few weeks as the novelties of the fraternalists go through their regular routine of mischief. Week before they are introduced.—Credogger.

If anyone wants to know the correct definition for a bluish, just recall the little poem:

A bluish is a temporary erythema and bluish effluence of the pharyngitis, antecedent by the preexistence of the aneurism, in a pronounced or inequity, from a mass of shame, anger, or other cause, eventuating in the parate of the vas-motoria.

Muscular filaments of the facial capillary, whereby being directed of their elasticity, they become suffused with a radiance emanating from uninitiated perspiration.—J-TAC.

Six white rats have been added to the home economics department, their role duty being to wait for experiments in dissection in the diet and nutrition department.—Campus Chat.

"Furnish Society Stories." A diverting miscellany of wide variety, in the title of the famous lecture, is to be given here by Carl Sandburg, poet, biographer, and humorist, at 7:30 p. m. Feb. 3, in the college auditorium, according to Dr. Florence Givner, chairman of the lecture committee.—Last-O.

Misses Hazel Kirk and Lura Russell were the guests of Marie Maloney and Helen Ruth McWhorter at Water City last weekend.

Conduct at the ball games is becoming alarming. Friday night it was almost "degenerate." It does not seem like, however, as our team was winning by a large margin, and the behavior of the fans would have been more decent. Every time Hag More made a decision in favor of Trinity, it was greeted by boisterous exclamations from the audience. It was not that he did not know how to referee a ball game, the management of the college would not allow him to call that the stuff that it takes to make championship chubs—that did teamwork.

Dean played well against Trinity but he had been shot for some time to turn in a good game. That merely reflects some of his playing ability in a season. We hope he will continue to act as he did Friday night, and if he does, he will be mighty hard to beat out for the all-conference team.

The Freshman team is at last putting into form. In their last few games they have been playing basketball as it should be played. They showed drive and spirit in their games. They have cleaned Grand Island's play last Saturday afternoon. To date they have played five games, winning four and losing one by a two-point margin.

Our Lions made the right start toward a successful season in the new conference by decisively defeating the Tigers of Trinity here last Friday night. The game was well played and the East Texas team last Saturday afternoon. To date they have played five games, winning four and losing one by a two-point margin.

## Who's Who In East Texas State Teachers College

BY J. M. BLEDSOE

The whereabouts and designs of Premier E. T. Stedman, who was elected to membership in the R. R. Teachers' College, Chapter, Scholarship Association of the South.

The Scholarship-Society corresponds in the undergraduate division of college work with the Phi Beta Kappa in the graduate division. The upper division of those receiving the Bachelor's degree may be elected to Phi Beta Kappa, while only the upper tier of a class may be elected to membership in the Phi Beta Kappa. To determine any reliable correlation between students in college and success in life, those whose records are studied should be placed in active service for several years. In justice to members of the Scholarship Society of the College, the names and addresses only will be given for all members elected since September 1, 1928. This will be the last issue in the present year before brief accounts of former members.

The club has organized into county teams and through this plan the champions will be ascertained.

On Tuesday at 8:00 o'clock the Tumbling Club entertained their players with a miniature track meet in the gym.

The Blue team, which Pauline Precious was captain, won highest point award, and Lee Orr, Blue, led the individual high point honor. The score was: Blue 10, White 5.
