LOOK UP!

What are some of our students going to do next? A lot of them are out of the building and are on their way out. This is the big question that local psychology students are trying to answer. It has already been said that it is not easy to guess. Baffarion is a hard and hard word but it is the downpour of chalk that is continually being thrown from the classroom windows. Why can't they get civilized and civilized in a way that would lead to the college instead of a disgrace?

A stranger on our campus might form the wrong opinion that all E. T. students are star-gazers or waiting for a new shower of the Leonids, but such is not the case. They are merely watching the window of the classroom on the second and third story of the different buildings to keep from being hit with crayon thrown by unliking students. All students realize that it is dangerous to get hit by some of the maliciously thrown crayon and are complaining about it. The crayon is sometimes thrown with such force and would cause serious injury to eyes if it were to strike in the right place.

BOOK FEES

Many teachers and fellow students have their opinions, both verbally expressed and otherwise, of students who do not pay their book fees. No doubt most students have seen paid the fee in this term before. There are several reasons for this. It is an evident fact that students are trying to get by as cheaply as possible. Still there are those who pay the fee if they thought they could get all their books.

A student pays his fee for a term and does not get all his books if it is not paid. He will try to get by without paying the fee. He pays the book fee, he feels that he has paid for his books that go with the course. He is taking, and must get them he will eventually get paying the fee.

No doubt many students have the wrong opinion concerning the books. Most students think that when the instructor says how many lack books and says for them not to worry because they will see about them in a few days that they are making more to do. The truth of the situation is that there is something radically wrong. If there are sufficient books to supply an enrollment of 2700 in the summer, surely there should be enough for the 1350 here.

Of course there are some few who did not pay the book fee that are trying to hide behind the fact that books were not available, but they are exactly the same as the teachers who are referring to—W. A. V.

Student Forum

For those who wish to express their views on any subject relating to the college, its activities, or its institutions this space will be reserved in the future. Comments or criticisms on subject matter in the East Texan, work of student officers, or athletics here in this college may be turned in to the East Texan office or mailed in to the registrar's office for publication. Articles must be signed, but the printed signature will be optional. The editor reserves the right to reject copy libelous or detrimental to the welfare of the college.

The installation of this column was caused by the receipt of two letters.

We're Telling You

To Editor East Texan:
According to tradition, college papers must have their scandal column and the East Texan is no exception to this rule. There are, in every school, a few who seem to see and know everything that happens. Some two or three of these or the editing column called "We're Telling You." This column is all right if properly used. But the question that comes to the mind of most students is this: Is this a ground column or is it a column in which publicity is given to deserving students? If the former, it should not, according to the opinions of students, contain anything of a personal nature. For instance, if a fellow goes with a young lady, and does nothing out of the way, why should his name appear in the scandal column? This is not only embarrassing to the boy, but to the girl as well. If an embarrassing incident is to be given the complete publicity the proper place for it would be in "The Week" column, and NOT in "We're Telling You."

Quite when a fellow sees a girl on the campus, or elsewhere, that he would like to take to the hall game, dance, party, club meeting, or some other social, but the first thing that comes to his mind is, will the reporters of "We're Telling You" be there? Just think of all the good looking girls that have had to stay home evenings just because of this column.

Last Friday evening boys were scattered all over town in groups of from three to twelve riding away perfectly good time. The writer approached one of these groups and asked why they did not get dates and settle down for a perfect evening. "Yes," replied one of them, "and get our names in 'We're Telling You' column."

The writer has no personal grudge against the column and its reporters, but when things get in such deplorable condition that one cannot date a respectable girl without having his name and that of the girl appear in the scandal column, it is time something was being done.—W.A.V.

Of course, we're Telling You saw Sayle at the dance at Spradling's on South Park street last Friday night.

To the Editor:
The East Texan: I will print something which does not concern the East Texan. The last issue of the paper was a complete flop as a newspaper.

I believe that the students of this college want, but not want, to see the East Texan. It may be that they do not want to see the paper, but they do want to see the paper. And that feature about the boys writing on a tree.

DOORS AND WINDOWS

(Continued from page 1)
Working kept on depending on the weather. But the day usually about twenty days in the winter. We do not get any number of winter days. The weather is so bad that the knowledge of these students who in the building are so unfortunates is not to be denied in such a case.

No Club Windows
Referring to the Education building, we find forty-one doors on the upper floor. That is, there are three main entrances, the main entrance, the main entrance, and the main entrance.

Things We're Paid To Tell

That the East Texan is the best paper in the state.
That this year's "We're Telling You" is going to be good.
That "We're Telling You" has a policy.

That Prof. Stevens is a senior.
That the librarian is busy out.
That we did not cut class.
That Mr. Hughes used to be home town.

That Garner is the prettiest boy in school.
That a hickster, Mr. Rose doesn't like school.
That there aren't enough girls in the school of the dormitory.

We Are Paid Not to Tell

The exact reason why Bill went to Mexico.
Who he is.
Why no many are late to class.

That one of the Prof's Miss Noyes advised.
Which musical record Allen had last.
Who is the ugliest boy in school.

Who is the ugliest boy in school.
Who is the ugliest boy in school.
Who is the ugliest boy in school.

Who is the ugliest boy in school.
Who is the ugliest boy in school.
Who is the ugliest boy in school.

Get Some Elsewhere

(Adapted from Paul Lawrence Durbler)
The editor had a job for me; but I had no much to do. I said: "You get somebody else, but I'll get through."

I don't know if the editor came out; no doubt he got along; but I got out of working him. I knew I'd do wrong.

One day I needed the editor; he needed him right away; but he never had me at all, and I could have said: "Get down to my apartment house. I've got too much to do. You get somebody else, or wait till I get through."

Now when the editor has a job for me, I never try to shirk; I drop whatever I have on hand and do the paper's work. And my affairs can run along, or wait till I get through.

Because the East Texan needs the help of both me and you. To the Journalism class—
Captain Galt Travis was a visitor in Sulphur Springs last Friday night.

Mauntes Crisp went to Sulphur Springs to spend the week-end.

No such Animal

Listen, my friends, and you shall hear.
Of a noise by without a beam.
To the city of Commerce he came to reside.

Four long years he spent at school.
To keep himself from being a fool.
Four long years so hard he tried.
He got by the deans and never lied.

Four long years he made his grade.
In every course an A he made.
Four long years he would try.
He's never been lectured by Mr. Winky.

Four long years, he had not a book.
His library fee they never took.
Four long years off the grass he'd walk.
Mr. Lutz never to have had his talk.

Four long years he studied fearlessly.
At the end of which he got a degree.
Now, my dear friends, it's just the same.
That noise you did never create.

Willie Farrer, a former E. T. student of Commerce, Texas, visited over the week-end with Miss Helen Owen and other friends.

SIMMONS UNIVERSITY BATTLE LIONS TONIGHT ON MAPLE FLOOR LOOP EVENT

Elx Lions Lose Second Game To Durant Savages

They beat it again of the Lions, while Raymond Miller has been acting captain of the Trinity Tigers.

Coach Willis will bring his team to Commerce Monday morning, while Coach Elx is ready to tackle his opponents when they arrive.

Sport Chat

Prickett, former Wesley and Case county star, did not hit his second meeting Saturday night against the Durant Savages. But he did hit the Savage's line, being misled by the line, as he was misled from the floor. Elx seemed to be trying to get the count to an even figure by failing to count on sixteen gaiting shots.

The Lions have just got to better their meeting ability. Many in the boys' crowd catch the ball after the time Durant's line man really did know just what to do with it.

Killingworth needs to practice plenty on just catching passes and being sure. His teammates are always throw the ball right in the old hand basket.

Joe Burks must be determined to do the boys all around about their laughing at him by the way he fluffed last Monday night. He was on the floor several times, but it was caused by bad scrambling after ball.

Something must have given Smith a hunch of an idea that he really could hit that old basket every time he found it. He was a good guard against the Savage's.

The Durant quit has nice letter men back from last year and they didn't beat the Lions as much as last year.

Elvis and Rowden of Durant might could handle that ball. With some aid of all of the boys, the Savage should go a long way toward having a most successful season.

How far is E. T. going in this season's conference ball? This seems to be the big question with all of the interested men, it hardly seems possible that they would go very far, but they may fool everyone. Watch them.

The Stephen F. Austin College team probably will have a very good season. They defeated Louisiana Normal at Natchitoches, 20 to 9. This was the first of the season. The season for the Lumberjacks. The E. T. boys are going to have a very good season. With a high point man in the above mentioned with 11 touchdowns. With a high man in this ability against the East Texas are going to have a busy year when they go up against the boys in their conference game.

How E. T. had had only half as many members that would really play as come to the door to see the game and just to see the band boys, the bandmaster would have very few worries. Why? Because they know that they will be getting a lot of money from the outside by letting outsiders use their instruments with them into the game with.

The cheer leaders of E. T. are doing a splendid job of work. They are getting a lot of support from the students. They are getting a lot of support from the students. They are getting a lot of support from the students. They are getting a lot of support from the students.

Coach Do (fills at least as much as that winning spirit, who or how.

It seems that the boys would do much better if they would spend more time in studying in learning to read. It seems that the boys would do much better if they would spend more time in studying in learning to read.

The E. T. boys are going to have a very good season. With a high point man in the above mentioned with 11 touchdowns. With a high man in this ability against the East Texas are going to have a busy year when they go up against the boys in their conference game.

How E. T. had had only half as many members that would really play as come to the door to see the game and just to see the band boys, the bandmaster would have very few worries. Why? Because they know that they will be getting a lot of money from the outside by letting outsiders use their instruments with them into the game with.

The cheer leaders of E. T. are doing a splendid job of work. They are getting a lot of support from the students. They are getting a lot of support from the students. They are getting a lot of support from the students.

Coach Do (fills at least as much as that winning spirit, who or how.

It seems that the boys would do much better if they would spend more time in studying in learning to read. It seems that the boys would do much better if they would spend more time in studying in learning to read.

TRACK IS SCENE OF ACTIVITY AS SEASON ARRIVES

Starting out for practice several weeks ago, the East Texas team has been working hard to get into shape for the season. The team has been working hard to get into shape for the season. The team has been working hard to get into shape for the season.

Prospects are bright, and what is expected, the team will be a real contender for the state championship.

FRESHMAN SQUAD CUT THREE TIMES

Although Coach John Windel has called the freshman team out to practice, it is still a long way from being ready to compete. The team has been working hard to get into shape for the season.
