Health Committee To Seek Replacement for ET Doctor

By Barbara Eickenhorst

Dr. Ruth Ann White, vice president of Student Affairs, is recruiting students to serve on a student health committee that will aid in the search for a replacement for Dr. Tom Lister, who resigned this summer as the university's medical doctor.

Dr. Lister's resignation was one of several ET administrative departures in the last year, but his position is one that has remained vacant.

Dr. White said that the committee would consist of both students and staff members such as Dr. White and a nurse from the ET hospital. At present, she plans for a committee total of 10, but pointed out that she wants the committee large enough to represent the students.

"I have spent a good deal of time trying to deal with this problem," Dr. White commented, "but maybe students have ideas that I don't have."

The salary allowed for ET's doctor has been increased from \$28,500 to \$30,000 in the new budget, Dr. White added.

"Other universities are in the same

position that we are in. For example, North Texas State has four positions in the budget, only one of which is filled. It is offering about the same salary that we are."

"I don't think that salary is the problem," Dr. White continued. "It is a combination of things. All small towns are having a hard time getting doctors."

Presently, Drs. Patrick Martin and Kenneth White, Commerce physicians, are handling the duties of the infirmary. Dr. White said that the two doctors are also making emergency night calls.

Along with the student health committee, Dr. White would like to see the student dining committee reactivated.

"Several years ago this committee met regularly, but last year there was a general lack of interest and the committee met only once."

The dining committee consists primarily of students, who make recommendations for improvements in the food service, Dr. White said.

Students interested in participating in either of these committees can

sign up in Dr. White's office, Room 277, Administration Building.

Other Administrative Changes

Other administrative resignations have been those of Dr. Robert Butler, dean of student life; Jack Lassister and Roberta Whitener, director and assistant director of student development; Dr. Pete Mann, director of Placement Services; and Robert Whitener, director of Alumni Affairs.

Ron Robinson, former director of the Student Center, has replaced Dr. Butler as acting dean of Student Life.

Robinson said that his office coordinates six departments under the division of Student Affairs, handles discipline problems and is in charge of Homecoming activities.

George Maguire replaced Robinson in the Student Center position, and Barry Mangels filled Maguire's vacant program director spot.

Student Development Reorganized

Pat Turner is the director of Student Development, assisted by Nelson Robinson.

She received her master's from ET and then went to Angelo State University where she set up the continuing education program. Robinson is the former director of ET's Multi-Cultural Center.

"We are waiting to hear from the students before we form our policy," she explained.

The Student Development office works with the Freshman Leadership Class, developmental programs, student service organizations and student government.

Sorority and fraternity activities, previously handled by the Student Development office, are now being handled by Mrs. Janice King, assistant dean of Student Life.

Dr. Mike Clay is serving as acting director of Placement Services. Dr. Clay was formerly assistant director of men's housing.

The position of director of Alumni Affairs has not been filled. Dr. Gideon T. James, vice president for Planning and Institutional Advancement, said that he wanted to talk with the board of the Alumni Association about a replacement.

Dr. James said that an appointment will probably not be made until the first of the year.

Presently, Mrs. Derylene Crawford, Alumni Affairs secretary, is handling the duties of that office.

Student Senate Awaits Election

A Student Senate election is tentatively scheduled for Tuesday, Oct. 1, with registration for places on the ballot to be held Wednesday through Friday, Sept. 18-20, according to United Students Association Vice President Byron Jackson, who is also senate president.

Although there is a senate meeting scheduled every week, Jackson said he does not expect a quorum to be present until after the election. This was the case last year, when the senate could not transact business until after the election for lack of a quorum.

Four senators, Jackson and USA President Steve Henderson were present at the first meeting of the Senate on Wednesday, Sept. 4, according to Richard McKinney, graduate senator. Another meeting is set for 6:30 p.m. Wednesday, Sept. 11, in the Board Room of the Student Center.

Jackson said that he and Henderson have decided to hold "some kind of forum or program" to introduce ET students to the candidates for senate. He said he wants this year's election to be "more competitive, more interesting" than elections in past years. Jackson said Henderson will soon call a meeting of campus and club leaders to discuss a program for creating student interest in the election.

Jackson is also in charge of an area wide conference of student leaders to be held at ET on Friday, Oct. 11. He said he is inviting student leaders from campuses all over Northeast Texas. The idea of the con-

Student Orientation Slated Sept. 12

A foreign student orientation will be held at 3 p.m. Thursday, Sept. 12, in the Bluebonnet Room of the Student Center for all new and transfer foreign students, according to Roger French, international student adviser.

The purpose of the orientation is to make students aware of the facilities available to them as well as to acquaint them with their responsibilities as a student in a foreign country.

French explained, "We hope to do this during the regular orientation period in the following semesters in order to make them (foreign students) a normal part of university life as soon as possible."

ference is to discuss problems common to all student governments.

Jackson said he is interested in setting up permanent lines of communication between student governments in all the area schools.

Dallas Litho Club Awards Scholarship

Roscoe Hinson, Greenville senior printing major, has been awarded a \$250 scholarship by the Dallas Litho Club. The scholarship is the first of four scholarships to be awarded each semester to Graphic Arts Junior Litho Club (GAJLC) members during the next four semesters.

Hinson, who served as president of the GAJLC for the past year, received notice of the award through a letter received by George Carter, journalism graphic-arts faculty, from the Scholarship Committee of the Dallas Litho Club Board of Governors.

Price Hike Due to Food Costs

By Allen Hallmark

ET students who have meal tickets are paying an average of \$39 more per semester than they were last year, according to W. L. Kelley, vice president for administration.

Asked if prices could go up next semester, Kelley explained that the university has a year's contract with ARA-Slater School and College Service which operates ET's cafeterias. Even though Slater could raise its rates by the terms of the contract, Kelley said, "I would have to see some awfully good reasons before changing in the middle of the year."

W. W. Smith, district manager for the food service, denied rumors that ARA-Slater is about to give up its service here. "There is no intent of giving up the food service," he said. About the possibility of a spring semester rise, Smith said, "I don't see it in the cards at this time."

Kelley said the room and board prices listed in the current ET Catalogue are out of date. He gave the following breakdown on room and board figures:

For the long meal ticket (20 meals per week), rent is \$231, board \$280, tax \$14 for a total of \$525. For the short meal ticket (10 meals a week, excluding breakfasts and weekend

meals), rent is \$231, board \$218 and tax \$10.90 for a total of \$459.90.

Smith said that in the past more students have purchased the short-meal plan, but this year each plan has about half the students. He said that perhaps students and parents have recognized the value of the long-meal program. For \$72 more the student gets 160 meals during the semester. Even if the student misses three meals a week during the semester, he gets 102 extra meals in 16 weeks over the short meal plan, according to Smith.

Kelley said that the price increase was called for by ARA-Slater. The university gets about \$35 of the board fee from each student, which goes to pay for the building bonds, utility payments and related items. The university did not raise its part of the boarding charge.

The primary cause for the increase is the spiraling inflation which has hit the food industry, according to Smith. He has whole lists of items, including many staples, which have doubled in price during the past year. Sugar has almost tripled in price since January, he said.

Prices have inflated about 19 per cent this year in the food industry, Smith said. He added that the increase passed on to the student was

12 Named To Appear In 'Godspell' Production

Twelve students have been named to the cast of "Godspell," a rock musical based on the Gospel of Matthew, according to Scharmal Schrock, production director. The show is scheduled as the fall dinner theatre production, with performances set Oct. 15-19, in the American Ballroom of the Student Center.

Two members of the cast will assume roles with names while the balance of the cast will use their own names in the show.

In the role of Jesus is Doug Roach, Longview freshman. He is a music major, and is making his first appearance in an ET production.

Philip Seawell is featured in the dual role of John the Baptist and Judas. In 1973, Seawell, a Bonham senior music major, was the lead in the dinner theatre production "Stop the World, I Want To Get Off."

Other cast members include Jeanmarie Bonifield, Borger junior, who also appeared in "Stop the World,"

Lisa Brandenburg, Midlothian sophomore, who was named "Outstanding Newcomer" to the ET University Playhouse in 1973-74; Pam Rothlisberger, Bridgeport junior, another veteran of "Stop the World," and Sandy Moore, Dallas senior, who appeared in the 1973 University production "Blithe Spirit."

Also named to the cast are Harry Dancey, Port Isabel senior; Roz Jeffcoat, New York sophomore; Joe L. Bennett, McComb, Miss., graduate; Billy Smith, Bryan freshman; Sue Walkup, Bryan freshman; and Mike Trussell, Claeborne graduate.

The dinner theatre is jointly sponsored by the Music Department and the Student Activities Board, according to Miss Schrock. This year's production will be the third annual dinner theatre.

Previously, dinner theatre performances were staged in the Chez Cafe of the Student Center. This year, because of heavy ticket demands in the past, the production will be staged on a platform stage in the American Ballroom of the Student Center.

Ticket sales will be handled through the Student Activities Board, according to Doris Stringer, publicity director for the production, and reservations must be made in advance. An announcement will be made when tickets are available.

Cystic Fibrosis Sets Commerce Drive

Beginning Monday, Sept. 16, volunteer workers for the National Cystic Fibrosis Research Foundation (NCFRF) will conduct a week-long campaign in Commerce to raise \$1,000 for the "Breath of Life" program, according to Orville Curry, national drive chairman.

Mrs. Russell Davis will head the local drive. Eddie Smith is in charge of business solicitations.

Cystic fibrosis is a lung disease which kills 50 per cent of its victims before they reach age 18.

Approximately six out of seven children screened and evaluated at NCFRF centers have lung-damaging diseases other than cystic fibrosis and receive treatment or referral. All children with these diseases are eligible for treatment at more than 110 cystic fibrosis centers throughout the United States.

Usually, the company buys its foods at an established purchase approved by the regional office in Irving, but now, Smith, the market is so unstable that he must buy at whatever the going market price is.

FORUM ARTS — Preservation Hall Jazz Band will kick off the Forum Arts programs for this semester at 8 p.m. on Wednesday, Sept. 18, in the University Auditorium. This group is one of the last of the original New Orleans jazz bands.

Jazz Concert To Open Forum Arts Fall Series

Opening the 1974 fall semester Forum Arts series, the Preservation Hall Jazz Band will perform in the University Auditorium at 8 p.m. Wednesday, Sept. 18.

The band is a group of musicians in their 70's performing authentic New Orleans jazz sounds, according to Dr. Margaret Wheat, director of Forum Arts.

Dorm Costs Increase

DENTON — Increased food costs have caused a 7 per cent increase in the dormitory board rate at North Texas State, according to The North Texas Daily, student newspaper.

Amounting to an increase of \$21 per semester for students, this is a smaller increase when compared to increases at Texas A&M, Southern Methodist and Stephen F. Austin.

The Preservation Hall Jazz Band takes its name from Preservation Hall, located in the heart of the New Orleans' French Quarter. Built in 1750, Preservation Hall has been a tavern, an art gallery and an artist's haven.

Today the hall is a private home run by Allan and Sandra Jaffe. The Jaffes' main purpose is to preserve the original music of New Orleans. In keeping with this tradition, nightly performances are held at Preservation Hall and a school of young musicians has also developed.

A Forum Arts card is necessary for admission to any Forum Arts program. A student interested in obtaining a card may register in the Social Sciences Building, Room 212, through Saturday, Sept. 14, or in his major department.

Ag Majors Hold Classes In 'Center'

Classes are already being held in the new Animal Science Center, located on Highway 50 south, which is nearing completion. The Agriculture Department was left without a place to hold classes since the old Ag building was demolished last spring. Construction on the Agriculture - Industry - Technology Building has just started with completion expected by next fall.

The Animal Science Center includes a classroom, a meats lab, a meats research lab, an enclosed area for livestock preparations, and living quarters, according to Lynn Quarrier, agriculture faculty.

The different types of breeds, market classes and the grades of animals will be studied in the meats lab. The meats lab will also be used for processing poultry. The meats processing lab was built to meet specifications of state laws for commercial processing plants. No commercial processing is done on campus.

The new sheep barn is separate from the Animal Science Center. The new facility offers better handling of the sheep, and will be used for shearing and feeding the sheep.

The new Animal Science Center is part of a \$204,000 improvement plan for the Agriculture Department. Other new facilities include a new dairy lab, a new mechanics lab and a new agronomy lab.

Speech Tests Announced For Future Teachers

Students desiring entrance into the Teaching Training Program can register for the Speech Proficiency Test beginning Monday, Sept. 20, at the Speech Building, according to Dr. Anthony J. Buckley, speech drama faculty.

The tests will be conducted beginning Wednesday, Sept. 23, through Friday, Sept. 27.

Candidacy Test Sept. 28

The admission to candidacy test for the master's degree in elementary education will be given at 8 a.m. Saturday, Sept. 28, in Room 211 Business Building, according to Dr. Allen Kavanaugh, head, Elementary Education Department.

All graduate elementary education students who have completed four courses of graduate work with a "B" average who are not planning to graduate in December and have not yet been admitted to candidacy are required to take the test.

Students can register for the test in Room 115, Education South Building.

Security Dept. Investigates Thefts, Accident on ET Campus

Three thefts that have occurred on campus since Monday, Sept. 2 are under investigation by the Security Department, according to ET Security Sgt. Mike Miller. An auto accident involving two autos was also reported last week.

An ET student employment paycheck for \$91.08 was stolen from a student's room in Smith Hall Tuesday, Sept. 3.

Also on the same day, a three-speed bicycle valued at \$75 was reported stolen from Bledsoe Hall. According to Miller, the bicycle was believed stolen Monday or Tuesday, Sept. 2 or 3.

A briefcase and its contents, valued at \$38, were reported stolen from the book foyer outside the University Bookstore at 5:30 p.m. Thursday, Sept. 5. Miller added that textbooks are a prime theft object during the first week of classes.

Laverne T. Fagg, driver of a 1973 Monte Carlo, and Faramanz Tamernejad, in a 1969 Cutlass, were involved in an auto accident Friday, Sept. 3. The wreck occurred on Neal Street and damage was reported as minor.

According to Miller, several parking tickets were issued to persons attempting to park their autos on Neal Street last week. No parking is allowed on Neal Street, he added. Miller said that anyone parking a motor vehicle on campus must display a parking permit. He added that this requirement is enforced 24 hours a day, seven days a week. If a person trades or sells a university registered vehicle, the sticker should be scraped off and the remains brought to the security office for a new permit at no cost.

Approximately 5,800 parking permits have been issued as of last week, Miller said, and that number is expected to increase. 7,030 permits were issued during the 1973 fall semester.

An estimated 11,000 permits were issued last year, including the 1973 fall semester, the 1974 spring semester and both 1974 summer terms. Miller estimated that there are 2,600-2,800 parking places on the main campus.

Persons parking cars on campus often forget or do not realize certain traffic and parking regulations, he said, such as the regulation that prohibits the parking of any vehicle on campus that does not have a valid license plate.

All state, local and university traffic laws and regulations are enforced by the Security Department, he said.

80 Pledge Seven Sororities

Eighty women have pledged ET's seven national social sororities during the fall formal rush period, Aug. 24-29, according to Debra Milton, graduate assistant for Panhellenic Council.

A total of 119 women registered for formal rush; 38 women are participating in open rush, which began Aug. 28. Open rush is still continuing, according to Ms. Milton.

The seven social sororities on campus are Alpha Delta Pi, Alpha Kappa Alpha, Alpha Phi, Chi Omega, Delta Sigma Theta, Gamma Phi Beta, and Kappa Delta.

The fall pledges are:

Alpha Delta Pi—Deborah Basham, Marena Gray, Shelley Mahler, Cindy Markham, Mickie Miller, Patricia Owens, Elizabeth Riley, Jill Rouse, Janet Sherman, Karen Spradling, and Cathey Ward.

Alpha Phi—Diana Anderson, Brenda Barker, Nancy Blunt, Judy Brownfield, Donna Garrett, Sheila Housley, Fran Jaska, Dottie Matthews, Julie Miranda, Patty Morris, Susan Morrison, Jinger Quillan, Beth Schrenghorst, Melinda Sherbert, Diane Sterle, Mary Sulak, Laura Thompson, Cindy Weatherford, and Glenda Williams.

Chi Omega—Susan Adams, Pam Barrera, Hannah Blakely, Linda Booher, Sharon Brook, Susan Darnell, Pat Ferguson, Kay Fults, Kathy Kennedy, Darcie Krieder, Valerie Meyer, Kit Murrah, Ruth Potts, Jane Reynolds, Kim Sims, Candy Stevens, Janet West, Teppy Williams, and Lisa Woodall.

Gamma Phi Beta—Cynthia Adkins, Debbie Alexander, Linda Curtis, Lisa Edwards, Colette Hilliard, Jeanne Hutson, Karen Jernigan, Pam Jernigan, Terry McRae, Nettie Mitchell, Jan Moore, Ginger Redfearn, and Joan Willson.

Kappa Delta—Barbara Alderdice, Billie Ausmus, Bettye Barnett, Judy Boone, Patricia Boynton, Susan Bridges, Shirley Brigham, Debbie Burk, Rhonda Crump, Debra Dalby, Debbie Ellis, Pam Folmar, Rhonda Fry, Maxine Logue, Janet McClure, Carroll Meaders, Paula Meaders, and Wanda Parker.

Eta Epsilon

Eta Epsilon, home economics club, is still accepting memberships, according to Dr. Judy Wilson, faculty adviser. The organization held its first meeting Tuesday, Sept. 10 on the Home Economics patio.

Officers for Eta Epsilon during the 1974-75 school year will be Kay White, president; Nan Brewer, first vice president; Helen Smitt, second vice president; Patty Tarrant, third vice president; Jane Chandler, secretary; Jean Chandler, treasurer; Judy Burkhalter, reporter; Paula Julian, historian; and Karen Hinkle, parliamentarian.

AWS

The ET Association of Women Students has disbanded for the fall semester due to lack of interest and participation. No plans have been made by the group to reorganize.

Graphic Arts

Linda Phelps was elected president of the Graphic Arts Junior Litho Club Thursday, Sept. 5. Phelps is a Commerce senior majoring in print-

ing with a minor in personnel management.

Other officers elected were Lonnie Visage, vice president; Ric Wester, secretary; Keith Thompson, treasurer.

C of C Bible Chair

The Church of Christ Bible Chair is planning a fall retreat at Camp Deer Run, near Winnsboro, Sept. 14-15. Buses will be leaving at 10 p.m., and returning the following afternoon.

Bible Studies are scheduled on Mondays at 6:30 at 2435 Westgate Dr., at 7 p.m. in Whitley 1111, and at 8:30 in Whitley 326.

Arnold Air Society

Pledgship for Arnold Air Society, the fraternal organization of the AFROTC at ET, will begin Sept. 23. Anyone who is interested can contact Maj. Harold E. Eaton in Mayo Hall.

Meetings will be held at 5:30 p.m. Tuesdays in Mayo Hall. The society has announced plans for its Field Day Picnic to be held Sept. 29 at Wind Point at Lake Tawakoni.

Angel Flight

Angel Flight, the women's service auxiliary of the ET AFROTC, has announced plans for its annual formal tea at 6:30 p.m. Tuesday, Sept. 17, in the Village Apartments Clubhouse. The tea is open to any woman interested in becoming a member of the organization.

The organization will begin pledgship Sept. 24. Interested persons may contact Kathy Canaday at 468-2443. Angel Flight held its rush picnic Tuesday, Sept. 10, in the Commerce City Park. Members and prospective pledges attended.

Psychology Club

The Psychology Club will meet at 3 p.m. on Wednesday, Sept. 18, in Room 217 of the Education South Building. Carl Ward, hypnotist, will present a demonstration. Anyone interested is invited to attend.

Alpha Lambda Delta

Membership certificates and jewelry of Alpha Lambda Delta, freshman women's honor society, may be picked up in Room 207 of the Home Economics Building on Tuesday and Thursday, according to Dr. Alma McGee, faculty adviser.

Kappa Alpha

Kappa Alpha, social fraternity, will hold a rush party at 8 p.m. Tuesday, Sept. 10, at the Ice House. Other rush activities scheduled are a bonfire party Wednesday, Sept. 11, and a spaghetti dinner at 7 p.m. Thursday, Sept. 12, at the KA house. A party for the KA members, rushees, and dates will be held Saturday, Sept. 14, in Dallas, after the ET-Prairie View football game in the Cotton Bowl.

Pi Sigma Epsilon

Pi Sigma Epsilon, professional marketing, management and salesmanship fraternity, will hold its fall rush Wednesday-Friday, Sept. 18-20, in BA-218. Refreshments will be served from 8:30 a.m. through 3 p.m. on Wednesday and Thursday and 8:30 to noon on Friday. Men and

women interested in business professions can obtain more information by calling 468-2955.

Alpha Gamma Alpha

Alpha Gamma Alpha, math club, will hold its first meeting at 3:30 p.m. Wednesday, Sept. 11 in S-135. Anyone interested in joining this club can contact Dr. John F. Lamb, mathematics faculty. The only requirement for joining the math club in that one must be taking or have taken Math 121.

Lambda Chi Alpha

Lambda Chi Alpha, social fraternity, is holding open rush for the fall semester. Remaining rush parties are: Wednesday, Sept. 11, at the Ice House; Friday, Sept. 13, at the Sand Hills Country Club; and Wednesday, Sept. 18, at the Ice House. More information is available by phoning 886-9583 or inquiring at the Lambda Chi house, 1709 Live Oak.

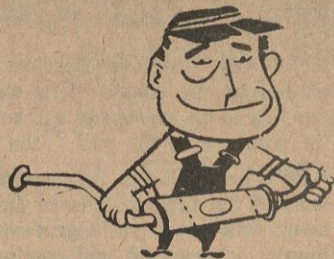

Delta Sigma Theta

Delta Sigma Theta, social fraternity, will sponsor a dance in Dallas at the Broadmoor Apartments Clubhouse, 414 E. Illinois, after the football game against Prairie View, Saturday, Sept. 14. Admission will be \$2 per couple or \$1.50 per individual.

Christian Coffeeshouse Announces Fall Activities

The Open Door, an all-faith Christian Coffeeshouse at 1912 Jackson St., has begun an interdenominational prayer group, coffeeshouse and Bible study program, according to Mrs. Helen Perry, coordinator.

The schedule includes at 7:30 p.m. Mondays, Life in the Spirit seminar; at 1 p.m. on Tuesdays, Ladies Bible Study group; at 7:30 p.m. on Wednesdays, student Bible study "Knowing God"; and at 7:30 p.m. on Thursdays, Prayer-Share groups. The Friday program to be held at the Christian Open House will not begin until October.

AV Gets Name Change

ETSU has received notification from the Coordinating Board, Texas College and University System, of the approval for changing the name of the Audio-Visual Center to the Center for Educational Media and Technology.

Along with the name change comes the incorporation of the library science curriculum into the center's curriculum.

According to Dr. Beatrice Murphy, director of the center, the name change will serve two purposes. First, she said, the new name will more clearly reflect the nature of the services provided by the center.

In addition, Dr. Murphy noted, the incorporation of audio-visual education and library science will help in coordinating the preparation of learning resources specialists. This degree program was formerly provided jointly by the Department of Library Science and the Audio-Visual Center.

She explained that the change will

in no way affect the services now offered by the center. "The service function to the university will remain the same as in the past," she said.

Dr. Dorothy Lilley, who served as head of the Library Science Department, will serve as a professor of library science and will continue to have a leadership role in giving guidance to students primarily interested in library science, Dr. Murphy said.

"Library science will retain its visibility and we will continue to offer the master's degree in library science," Dr. Murphy said.

HOMECOMING COMMITTEE — Ron Robinson (left), acting dean of Student Life, exchanges ideas about Homecoming 1974 with other members of the committee planning the six-day affair set to run from Tuesday, Oct. 29, through Sunday, Nov. 3. Also pictured are Nancy Vause, ETSU cheerleader, and Dr. Frank Barchard, history faculty. The theme of Homecoming activities is "The Way We Were." In addition to the usual receptions, breakfasts, luncheons, etc., this year's activities will feature unusual items such as the J. E. Spalding carnival consisting of 10 to 15 rides and shows and at least 20 concessions, the largest parade in the history of Commerce and a free outdoor concert featuring nationally known entertainers.

(Photo by Dave Walvoord)

Homecoming Committee Planning Five Days With Carnival, Kingston Trio

By Jim Stealy

Homecoming for ETSU should be different this year, according to the Homecoming Planning Committee, headed by Ron Robinson, dean of Student Life.

Approximately \$6,000 will be spread over a five-day period from Wednesday, Oct. 30, to Sunday, Nov. 3, to provide students, faculty, ex-stu-

dents, and local citizens with a variety of entertainment. Spalding Shows Carnival will run all five nights "beside Gee Lake," Robinson commented.

The New Kingston Trio will perform Friday night at 8 p.m. at the lake, and the members of the trio will be grand marshalls of the Homecoming Parade, Saturday, Nov. 2.

Five coeds will be elected by the student body as nominees for Homecoming Queen. The Queen will be chosen by election from the five, with the runners-up becoming her court. Final winners will be announced at the Homecoming Bonfire, which will also be held by the lake, Thursday night, Oct. 31.

The Homecoming Parade will pass through Commerce Saturday morning to conclude at Memorial Stadium. Pre-game activities, involving area bands, drum and bugle corps, drill teams, etc. will begin at 1:30 p.m. at the stadium, with the game, ET

vs. Southwest Texas State, at 2 p.m.

A cash prize will be awarded for the best float in the parade with the proceeds to go to the winning organization's choice of charity. A Grand Marshalls' Grand Prize will also be presented to the New Kingston Trio's favorite float.

The 1949 football team will be the honored guests at the Saturday game.

Robinson announced that Sept. 20 is the float registration deadline for major entries. Oct. 1 will be the cut-off date for small organizations' entries, and Oct. 18 for community groups. Spaces will be assigned to groups that wish to build floats.

RUSH PARTY—Bill Carroll, Waco junior, enjoying a rush party given by Sigma Phi Epsilon, social fraternity, last Wednesday at the Electric Circus. Some campus fraternities are still in the process of having rush, as can be evidenced by students wearing ribbons on campus.

CAMPUS SCOPE

Barbecue, Concert Set Today

An outdoor barbecue and free concert are scheduled by the Student Activities Board for today.

The barbecue will be served beginning at 4:30 p.m. at the east lawn of the Student Center. At 5:15 p.m. the free concert featuring the soul music group, The McCrary, will begin.

Area residents are invited to attend both the barbecue and the concert. The barbecue is free to students with meal tickets.

Science Fiction Course Set

A free "Science Fiction" course is being held on the second and fourth Tuesdays each month, with Tim Skidmore in charge.

The course, which was scheduled to begin Tuesday, Sept. 10, will last as long as interest continues. It is the first of 10 different Leisure Learning courses being offered for the fall semester.

Any student or faculty member may teach a Leisure Learning course if his idea is approved by an advisory board of faculty including a Student Activities Board member.

A person interested in taking a Leisure Learning course should register at the Student Center or simply show up for the class.

Arte's End Opens

Now opening for its third year is Arte's End, located next to the Post Office in the Student Center. A retail outlet for works by the art student and non-art student alike, Arte's End is open Monday through Friday, 10:30 a.m. to 4:00 p.m.

Hopeful of a more successful year is store supervisor Roxie Valteau, who said last year's business showed an increase over its initial bout with East Texan pocketbooks.

The artist who provides work to Arte's End sets his own price and will receive 80 per cent of that price when the work is sold. The remaining 20 per cent is split evenly between the Art Scholarship Fund and the Student Center.

The majority of the work in Arte's End is of fine art and handcraft nature, although prints and sculptures also are sold there.

Arte's End needs graphic works such as prints, photographs, and ceramics to sell, according to Debbie Collier, manager of Arte's End for the past year.

Exercise Class Slated

The ET Division of Continuing Education is sponsoring an exercise class for women. "Credit-free," the class is open to both students and area residents.

The six-week class will begin Monday, Sept. 9, and is taught by Carolyn Burt, health, physical education and recreation faculty.

The \$5 registration fee can be paid at the Continuing Education Office.

Magazine Seeks Stories

Contributions from ET students studying any major are being taken for Forthcoming, the creative writing magazine published by the Literature-Languages Department, ac-

ording to Belle Chasteen, sponsor.

Poems, non-fiction articles, short stories and one-act plays are published in the magazine. Material should be typed and double-spaced, if possible, and may be submitted in Room 104, Hall of Languages.

A creative writing club will be sponsored by Mrs. Chasteen. Meeting announcements will be posted on the Forthcoming section of the first floor bulletin board in the Hall of Languages.

Speaker Scheduled

The Rev. David Uhl, a Presbyterian minister from Greenville, is slated to deliver a speech, Thursday, Sept. 12, to a Psychology 232 class in Room 217, Education South, according to Dr. Billy Roland, psychology faculty.

Topics for discussion will include the church's attitude toward multiple marriage and other issues.

A new course offered this semester, Psychology 232, "The Psychology of Human Sexual Behavior," is designed "to help establish one's own moral standards," Dr. Roland said. The course deals with sex on the psychological, biological and social levels.

Roland plans to present persons involved in prostitution, homosexuality and transvestism throughout the semester. A workshop on sex for sex education school teachers will be held at ETSU next summer.

IRHC To Study Homecoming

The Inter-Residence Hall Council will start the year by developing ideas and plans concerning campus residents' involvement in Homecoming Week.

According to Darlene Ewing, President of the IRHC, the first council meeting will be held Tuesday, Sept. 17, in the newly-acquired IRHC office in the lobby of Whitley Hall. At that time the group will begin planning the IRHC Homecoming Float, which will be built to fit the university-wide nostalgia theme. Other activities such as the hall decorating contest will be discussed.

Ms. Ewing added that the IRHC Scholarship Award will be presented to Smith Hall for having the highest resident average grade point average.

The Spook House, an annual event for the IRHC, had to be cancelled as it was set for the same date as the Homecoming Bonfire, but Ms. Ewing expects the council to organize another event to take its place.

Math Program Slated

The Mathematics Department has begun a new program this fall for prospective elementary education majors. Dr. Dale Bedgood, head, Mathematics Department, said that the program is a math specialization sequence.

The objectives for the program are to understand the concepts, structures, and style of mathematics at the elementary level; to recognize the mathematical applications to physical, social, and biological environmental problems; and to solve mathematical problems. Other objectives are to develop skills in

arithmetic with speed and accuracy; and to develop the student's ability to reason and think inductively.

Students interested in learning of the various programs for elementary education majors may contact Dr. Allen Kavanaugh, head, Elementary Education Department, or Dr. Bonnie Kelterborn, mathematics faculty.

Parachutists To Jump

Butch Swiderski and Lee Crawford, members of the ET Skyriders jump club and Butch Crenshaw of the Hugo, Okla., Skydivers, will perform a demonstration freefall jump at 4 p.m. Wednesday, Sept. 11, in conjunction with the Student Activities Board barbecue and free concert.

Smoke grenades, freefall time and the jump itself will depend on the weather conditions, according to Swiderski, club instructor.

The Skyriders will have an organizational meeting at 7:30 p.m. Thursday, Sept. 12, in the American Ballroom of the Student Center, according to Pete McElroy, club president. A guest speaker is slated along with a 20 minute film, "Masters of the Sky."

Cheerleaders Win District Award; Seek National Prize

ET's cheerleaders won the Southern Missouri State district award given by Braniff and Dr Pepper in August which puts them in the running for a national award.

The Southern Missouri District includes approximately 25 teams, throughout the nation, which attended cheerleading camp at Southwest Missouri State University. Throughout the United States, there are six districts which college cheerleading squads may attend.

Five of the six district winners will be chosen later to attend the Super Bowl game, and ET stands a good chance of being among them, ac-

ording to Mrs. Pat Turner, director of student development. If ET's team does win, it will receive a national scholarship for uniforms.

During the one-week cheerleading camp, the cheerleaders also won a Spirit Stick every day, a Super Blue Ribbon every day, and, for the second consecutive year, won the Spark Plug Award as the team that produced the most spirit during the week.

ET's cheerleaders include Roxie Gray, Sharon Kingsley, Nancy Vause, Donna Turner, Gerald Dickey, Greg Gotses, Ricky Moss and Bill Sengbush, head cheerleader.

SUMMER AWARDS — ETSU cheerleaders returned from cheerleading camp at Southwest Missouri State University with a Spirit Stick award, Super Blue Ribbon award, Spark Plug Award, and the Southern Missouri State district award. Cheer-

leaders include (left to right) Greg Gotses, Sharon Kingsley, Gerald Dickey, Nancy Vause, Donna Turner, Ricky Moss, Roxie Gray, and Bill Sengbush, head cheerleader.

Research by ET Chemistry Student May Mean Better Control of Insects

Research is being done in the ET Chemistry Department that may someday have a great impact on insect control. Jai Prakash S. Nagarkatti, chemistry doctoral student, has developed a new method of synthesizing a female bollweevil hormone that is used to attract the male for mating purposes.

The 27-year-old Nagarkatti, from Hyderabad, India, outlined the method used for the synthesis of the hormone in a paper, "A New Efficient Synthesis of Propylure," which will serve as the foundation of his doctoral dissertation. He presented the paper to the Southwest Regional Meeting of the American Chemical Society at El Paso last December, and has recently submitted it to the Journal of Organic Chemistry for publication.

Nagarkatti's preliminary work on the procedure included a paper, "Periodic Acid Cleavage of Epoxides,"

Photojournalist Costa Joins Faculty

Joseph Costa, who has 50 years of experience in photojournalism, has joined the Journalism-Graphic Arts faculty as a visiting professor for the 1974-75 school year.

A freelance photographer, lecturer and photo consultant, Costa is a member of the founding faculty of the Famous Photographers School of Westport, Conn.

He has served on the staff of the New York Morning World, The New York News, New York Sunday Mirror Magazine and World Book Encyclopedia Science Service.

Dr. Otha Spencer, photojournalism faculty, is on leave of absence.

Costa, first president of the National Press Photographers Association, has also served for 21 years as executive editor of the National Press Photographers. In that position, he led the fight for more liberal rules on the use of cameras in reporting court proceedings.

which was published in Tetrahedron, a journal of chemistry in England. He has received requests for the paper from over the world.

Nagarkatti, who earned his B.S. and M.S. degrees at Osmania University in India, said, "This process is similar to trying to make gold from iron." By treating cyclooctadiene, an inexpensive starting material, with periodic acid, Nagarkatti was able to duplicate the expensive female hormone.

"This method allows people to make structural changes," said Dr. Stephen Raznaik, head, Chemistry Department, who added that it was a "good yield method." This fact has led Nagarkatti to believe that his method can be adapted to produce not only sex attractions, but also other long-chain compounds such as vitamin A.

The paper, "A New Efficient Synthesis of Propylure," deals with the control of the pink bollworm, a destructive cotton pest found in cotton-producing areas. "Natural extractive of the female hormone is quite expensive because you have to extract it from the organism," Dr. Raznaik said. "From 85,000 female bollweevils, it is possible to get 1.5 milligrams of the hormone," Nagarkatti explained.

The hormone Nagarkatti has duplicated appears only in virgin female bollweevils and acts as an attractant for males. If a quantity of this syn-

thetically-produced hormone is placed outside a cotton field, it will attract all the male bollweevils, leaving the females without mates. It is then possible to kill the attracted bollweevils, leaving the females without mates. It is then possible to kill the attracted bollweevils by using insecticides or other methods, according to Dr. Robert Williams, biology faculty.

Because the amount needed to attract males has not yet been determined, the hormone attracts not only males in the field, but also those outside the cotton field, which sometimes causes destruction as they come across the field.

Although final cost of producing the synthetic hormone is not yet known, it appears to be what Nagarkatti called "very economical." Funds for the research come from a grant given to Dr. Ken Ashley, Nagarkatti's research supervisor, by the Welch Foundation, a Houston-based organization that funds chemical research.

Nagarkatti has recently begun developing sex attractants for other insects such as the cabbage looper, silkworm and Iowa strain. This work is being done under a grant from the Faculty Research Fund of ET.

Upon graduation next spring, Nagarkatti would like to do some post-doctoral work. "I would like to work in a lab connected with the Department of Agriculture," he said.

New Machine To Increase Computer Center Capacity

The ET Computer Center will upgrade its equipment soon by converting an IBM 360/40 to an IBM 360/50 computer, thus adding 30-40 per cent to the center's work capacity, according to Lowell Ballew, Computer Center director.

Two high speed line printers, a card reader/punch and control units will be added.

Ballew explained that the equipment will be leased just as the current equipment is, and will cost the university no more than the older, slower equipment does. "We will still be getting IBM equipment and IBM service, but the equipment will be provided through CIG Computer Products, Inc., a Stamford, Conn., based company," he added.

There will not be any added cost to the university for removing the old equipment and installing the new equipment because both are included in the equipment's lease price, Ballew said. He explained that the monthly lease rate for the IBM360/40 is \$8,000 a month, and the IBM 360/50 will cost \$8,951 a month.

The new computer will provide twice the memory capacity of the IBM 360/40, and the line printer is twice as fast as the one now in use, Ballew noted. He said offices utilizing computer terminals and batch users will both receive better service.

In addition, Ballew said, the conversion will allow the center to do large research projects routinely rather than waiting for the weekend as they now do. This is due to the larger memory of the 360/50. "On some projects we have all of the 360/40's memory so we have to wait until the weekend to do so," he said. "Graduate students doing research will also find the turnaround time (time taken to get data returned) shortened," Ballew said. He also noted that the increased power will allow the center to add new computer terminals which are used for clerical work and for computer assisted instruction. "Three new terminals are now on order, and we expect delivery around the first of the year," Ballew said.

GAME ROOM

EAST TEXAS Book Store

BOOMING THROUGH the "Blue Gang" defense was 185-pound junior tailback Aundra "Boomer" Thompson during the last Lion intra squad scrimmage Saturday, Aug. 31, in ET's Memorial Stadium. (Photo by Sharon Owens)

Lions Open With QB Dilemma

By Barbara Eickenhorst

Ernest Hawkins, ET head football coach, will carry his No. 1 quarterback dilemma with him to the ET-Prairie View A&M game at 8 p.m. Saturday, Sept. 14, in the Cotton Bowl.

Performances by Dallas junior Bill Hill and Forney redshirt freshman Terry Skinner in last Saturday night's scrimmage with Kilgore Junior College failed to produce a leader for the Lions' season opener.

Hill Skinner

Hawkins named Hill as the starter against Prairie View but added that both would see action.

Skinner, Hawkins added, had a sore arm that kept him from passing well.

ET's head mentor will use the Prairie View and East Central games as testing grounds before naming a permanent leader to open conference play with Sam Houston Saturday, Sept. 28, in Huntsville.

In the Kilgore scrimmage, the

Powell Thompson

Lions outscored their opponent four touchdowns to one. Dallas sophomore Leonard Allen added a 37-yard field

Varsity Volleyball To Start Sept. 24

The women's varsity volleyball team will meet its first competition at 6 p.m. Tuesday, Sept. 24, at Whitley Gym, according to coach Susan Andrews.

The squad consists of Cheryl Bron, Brenda Lockett, Lynda Loftin, Lillian Meriwether, Yalanda Jones, Marion Kerr, Sheila Holland, Randi Kerr, Debbie Ryburn, Becky Strane, Sandy Small, Susie Parker, Rita Powelson, Sharon Sanders, and Debbie McDaniels. Andrews is the head coach and Dave Williams will serve as assistant coach.

Pre-season tennis workouts began Monday, Sept. 9, according to coach Andrews. Team members will have drills and other conditioning before 4:30 p.m. under the direction of Mrs. Roz Tuerk, and then team members will work with the volleyball team.

goal to the Lions' scoring efforts.

Two-year letterman Hill completed 1-5 for 22 yards and picked up eight yards on the ground. Skinner completed 3-9 for 27 yards and twice was dropped trying to pass for a total loss of 17 yards.

Hawkins praised his two running backs, Aundra Thompson and Craig Powell, for their performances at the scrimmage.

Both backs ran for touchdowns.

Thompson suffered a slight ankle sprain in the Kilgore scrimmage but will probably be ready for Prairie View, Hawkins said.

On Monday, the Lions began prep-

1974 ET Football Schedule

Date	Opponent
Sept. 14	Prairie View A&M College
Sept. 21	East Central (Okla.) State College
Sept. 28	Sam Houston State University

Oct. 12	Texas A&I University
Oct. 19	Abilene Christian College
Oct. 26	Stephen F. Austin State University
Nov. 2	Southwest Texas State University
Nov. 9	Sul Ross State University
Nov. 16	Angelo State University
Nov. 23	Tarleton State University
Nov. 30	Bethune-Cookman College

arations for their season opener with the Prairie View Panthers.

Hawkins said that the ET gridders' pre-season practice was wound up, while "still lacking in a few spots."

Tickets for the Lion-Panther clash are on sale in the Health and Physi-

cal Education office, first floor of the Field House. Prices are \$2 for students and \$3 for non-students, if tickets are purchased before the game.

INTRAMURALS

Deadlines Set This Week

Final registration for women's intramural volleyball will be Friday, Sept. 13, according to Carolyn "Scooter" McQueary, women's intramural director.

Independent volleyball competition will begin Monday, Sept. 23 and sorority competition will start on Tuesday, Sept. 24.

Interested participants may register at Whitley Gym east of the Field House, by contacting McQueary in the Intramural Office, or Debbie Johnson, graduate assistant for intramurals.

Scheduled intramural sports for the year will include volleyball, basketball, basketball free throw, badminton, archery, table tennis, softball and tennis.

Copies of the rules and regulations may be picked up in the Intramural Office in Whitley Gym.

Deadline for men's intramural football and swimming entries is 5 p.m. Thursday, Sept. 12, with activities to begin Monday, Sept. 16, according to Barney Iles, men's intramural director.

A handbook containing the policies and regulations for the intramural program, along with entry forms, are available at the Intramural Office in the Field House.

Team and individual activities will

be conducted in three separate divisions: independent, fraternity, and faculty-staff. Team rosters for football will be limited to 20 participants, according to Iles.

'Cats Win; TSU Loses

Abilene Christian and Tarleton re-sembled the Alpha and the Omega in their respective season openers Saturday—the beginning and the end.

ACC was the beginning, as Wilbert Montgomery and in the rest of the Wildcats picked up where they left off last season, pounding State College of Arkansas, 27-10, in Little Rock, Ark. TSU, in the Lone Star Conference cellar all last season, dropped its opening game to Texas Lutheran, 30-0, in Stephenville.

Montgomery, last year's LSC "Freshman of the Year" after scoring 37 touchdowns for the LSC and NAIA champions, scored four times against SCA on runs of five, 14, one and four yards. Montgomery led the night's rushing efforts with 47 yards on 20 carries.

Junior quarterback Toby York connected on 8-11 for 138 yards. Tight end Greg Stirman was on the receiving year of four aerials for 57 yards.

SCA scored all of its points during the first half, on a two-yard run by Nathaniel Daniel and Mike Dunaway's 38-yard field goal.

Texas Lutheran demolished TSU's defense by gaining 305 yards on the ground and picking up 25 first downs.

Quarterback Mike Washington scored on runs of 11 and 13 yards, and David Wehmeyer rambled in from four yards out to score. Chris Keller boomed field goals of 40 and 48 yards.

Wehmeyer led Texas Lutheran's ground attack with 95 yards in 22 carries.

ACC, Angelo and TSU are idle Saturday, while all other LSC teams are in action.

Brooks Dozier, head basketball coach at MacArthur High School, Irving, has accepted the position of graduate assistant basketball coach at Sul Ross.

Dozier compiled a 73-106 record during his seven years at MacArthur. He formerly coached at Round Rock, Angleton, Beeville, and Ozona.

Billy Tidwell, Sam Houston's new head football coach, has new ideas for the SH Bearkats this season after inheriting a 2-8 team from last season.

Tidwell has put a success formula into action at SH, one consisting of "no drinking, smoking, class cutting and unkept hair." Players have accepted the formula.

"I'm not expecting to win every game we play this year," Tidwell said, "but I am expecting to have drive, determination and pride from my players."

The Bearkats outscored Henderson County Junior College 3-2, Saturday, Aug. 31, amassing 298 yards in total offense.

Lone Star Conference football may be receiving more wide-spread coverage this season, as three LSC teams open their seasons in major stadiums.

Defending conference champion Abilene Christian opened its season with a 27-10 win over State College of Arkansas in Little Rock, Ark.'s 56,000-seat capacity War Memorial Stadium, the largest in the state.

ET opens this Saturday against Prairie View A&M in Dallas' Cotton Bowl, and Sam Houston starts its season against Texas Southern in Houston's Astrodome.

Political Scientists Give Views On Ford's Pardoning of Nixon

By Kevin D. Cox

Three members of ET's political science faculty, Dr. Ellis Sandoz, Dr. Paul McCoy, and Ralph Lowenthal, expressed both agreement and disagreement in interviews Monday toward President Ford's decision to pardon Richard Nixon of any criminal conduct.

All three did agree on the idea that President Ford made a politically harmful decision. McCoy expressed this idea by saying that Ford made a mistake by not checking with Congress before pardoning Nixon and added that this move would end Ford's so-called "honeymoon" with Congress.

Lowenthal said that Ford should have waited until after the 1976 presidential election to pardon Nixon, if Ford did wish to pardon him. Either as a defeated candidate or as a president facing a new term, the decision would not be as harmful at that time, Lowenthal said.

Sandoz, head, Political Science Department, said that he agreed with the timing. He said that it was a wise decision to pardon Nixon before the former president was indicted and a long judicial proceeding started.

Sandoz said that he thought what Ford did was justified, but explained that he did disagree with the pardon on two particular points. First, Sandoz said, Nixon should have admitted wrongdoing in his presidency. Secondly, the former Nixon subordinates who have faced criminal prosecution now have grounds to appear in court and ask for a dismissal of charges. The question of what to do with these persons, who often acted under the president's orders, is a problem, he said. He added that he would be surprised if Ford did pardon any of the former White House staff who have been charged with crimes.

Nixon's forced resignation and end to his political career is punishment enough, according to Sandoz. McCoy agreed that Nixon has been punished enough in relation to what he has done.

Lowenthal said that he disagrees with Ford's action and said that "we should let the political process do its work." According to Lowenthal, the former president should be brought through the proper court proceedings "so that confidence may

be restored in the judicial process." Lowenthal said Ford's "short circuiting" of the judicial process has worked to establish a double standard and it "downgrades equal justice."

"We should have set the precedent that the law is above the individual," Lowenthal concluded.

Sandoz did explain that Nixon will probably be subpoenaed to appear as a witness in the approaching trials of John Erlichman and Halderman.

According to Sandoz, Nixon's testimony should bring his entire role in Watergate matter to light. In this way, he said, Nixon becomes "the star witness" since he does not have to fear conviction in a federal court for any of his alleged criminal activities during his presidency.

Both McCoy and Lowenthal pointed out that Nixon might be prosecuted in the state's courts but declined to speculate any further on that possibility.

ET Speech, Hearing Clinic Offers Therapeutic Services

The ET Speech and Hearing Clinic is acting as both a diagnostic and therapeutic center for the public and as a training center for persons entering or already in the field of speech and hearing therapy.

According to Carl McGovern, audiologist and speech pathologist at ETSU, the clinic is closely supervised by faculty members who are professionally accredited in speech pathology and audiology. All of the services are provided free of charge to the public.

In addition to McGovern, the clinic's staff consists of Donald R. Johnson, audiologist; Alice Morgan, speech pathologist; and Dr. Paul H. Roosevelt, clinic director and speech pathologist.

The services offered at the clinic are audiological diagnosis, speech and language evaluation, otolaryngological examination (the branch of medicine combining the fields of laryngology and otology), hearing aid evaluation, hearing aid orientation, lipreading and auditory training and speech and language therapy.

McGovern noted that all a person has to do to take advantage of the services offered by the clinic is to make an appointment.

In the training aspect of the center, bachelor's and master's degrees in speech and hearing therapy are available through the Department of Speech and Drama. Minors in speech and hearing therapy are also available to doctoral degree students majoring in supervision, curriculum

and instruction.

In addition to the degree programs, the center, in cooperation with the ETSU Division of Continuing Education, began a four-part course of study in the spring of 1974 to train hearing aid specialists.

The program, which began with one hearing aid specialist who requested an informal course of study that would enable him to better serve hearing impaired clientele, now has 30 specialists who are completing the fourth and final section of the course this fall.

In addition to the course offered on the Commerce campus of ETSU, a second class was begun on the campus of ETSU - Texarkana. McGovern said he expects about 40 more students to enroll in the spring.

Through the program, said to be the only one of its kind under the general administration of a state educational institution, McGovern and Dr. Roosevelt hope to supply the knowledge that is necessary so a hearing aid specialist can provide quality instruments, accessories and maintenance services to individuals requiring hearing aids.

"Leaders in the hearing aid industry continue to call for advanced educational requirements for persons entering the field as well as for advanced educational programs for presently licensed specialists," McGovern explained. In addition he said the industry is also concerned that a sufficient number of young persons are not entering the field of hearing aid specialization.

He said the clinic is working to remedy the first problem, and from this program he hopes to establish a course of study that will be aimed at persons who are interested in entering the field for the first time.
