Seniors Choose Officers Wednesday; Moore Prexy

Taggart, Chism, And Reaves Others Picked At First Meeting

Organizing their class for the summer terms, the August seniors selected officers last Wednesday morning at assembly period, in L. I. 110.

Ray Moore, J. L. Taggart, Loh Chism, and Oscar Lee Reaves, Jr. were selected respectively for the offices of president, vice-president, secretary and treasurer, and reporter. J. G. Smith was selected as sponsor.

E. T. Sellers, president of the Student Council, called the meeting to order and presided until the election of President Moore. After the election, it was decided to meet every Wednesday at assembly period (8:40). Approximately 100 male members will be held.

Moore, from Dallas, is a freshman member of the football quarterback during his two years at the last two years of high school.

Taggart from Greenville was a member of the football squad. He was also member of the co-champion last year of the football team.

Chism, a home owner in Commerce, is a member of the football team. He is also a member of the co-champion last year of the football team.

Reaves, a student librarian, comes from Mount Vernon. He is a pre-medical student and chemistry major.

Graduates Will Have Excursion Room On Third Floor Library

For study, research and preparation of graduate students, a new division of the library, the graduate room, L. I. 275 was opened this week. In an effort to inaugurate the new service, (Prof. William Reid) has invited the students to become acquainted with the room and its facilities. The use of the library in this manner is being encouraged by the staff.

Room 208 on the east side of the library is a student study room. It is in charge to help and advise the students of all times. The room is in room 208 on the east side of the library. THIS WEEK

With another week of school in full swing, it can be expected that the students will exhibit fairly good manners and behavior, the majority remain to see the school close.

Perhaps, though the wrong impression is being given, the sort of slow exhibited has been the result of the different moods which ordinarily dieting the entertainers.

Without a doubt, the Coffey Mills players were real entertainers. But from now on, we try not to mention anything but the good news.

For one night, students' feelings were stirred by our Britisher. He suggests that the entertainers must not only well do their best, but also be too hot to study any more.

For once, we can really praise the weather. It is a real weather man, nothing more than vacation, sleeping and eating. But from now on, we try not to mention anything but the good news.

Beating the girls to the demonstration outfit, discovered well-organized home, a remarkable feat. It is a joy to see, in all, every item harmonizing well.

All Summer Students Can Now Be Shot, Warns Locust Staff

Summer students are warned by the 1037 Locust Staff that only one week remains in which they will be photographed "alive" for the yearbook.

All summer students, including graduates, undergraduates, and especially the summer boys, are urged to appear at Howe & Son as soon as possible in order to avoid the last minute rush to the photographer.

Students will not wear the old fashioned cap and gown costume for pictures this year, but instead in casual attire. They are advised to appear at Howe & Son as soon as possible in order to avoid the last minute rush to the photographer.

Theory Given To End Theories About Summer's Beginning

By DOBNEY PORTER
East Texas Society Editor
After days of speculating in the heat, sitting under in front of electric fans, and sipping iced tea, somebody rushes up with the good news that summer has begun.

So spring ended Sunday, June 21, and summer began. Of course that is a mistake. Somebody has been "hired" so the students must have got tired figuring that they had it in a joy to see, in all, every item harmonizing well.

GOVERNMENT ON TRIAL

Our present national government stands on the platform for trial. It is hailed into court by those who called for two years ago prior to 1931; although it is vigorously charged with all the sins of the fathers.

ELEVATING AGRICULTURE

We are all agreed that all business and industry depend primarily upon the soil, but few of us are willing to associate the man who tills the soil with a boy's game of society. We have never thought of the farmer from the banker, the lawyer, and the merchant.
