### Real Purpose Of Athletics Outlined

John L. Griffith, head of the men's division of the National Amateur Athletic Federation with headquarters in Chicago, of which Dr. D. A. Penick of the University of Texas is a member, is endeavoring through a series of articles to awaken public interest in the deeper significance of athletics. Because many people look upon athletic activities as a waste of time and money, Mr. Griffith finds the comment of Stuart P. Sherman, literary editor of the New York Herald and Tribune, refreshing. Mr. Sherman says historians in the future will refer to this as the "stadium building" age in America, seeing in it a special religious significance when youth exalted the hard rules of the game and a self-imposed system of ethics. As a result, Mr. Sherman is "hoping our children's generations will contain more real sportsmen than ours did."

### Large Crowd Attends The Band Concert

The concert given by Prof. Munden's sixty piece band Wednesday night drew the largest crowd ever attending a concert here. Practically every college student and large numbers of town people were present. A few selections were played and then the musicians were served with ice cream. During this intermission Prof. H. H. J. Fling talked to the audience concerning "Texas," a musical composition written by Prof. Munden of this city. Prof. Munden wrote this poem intending to enter it in the contest for a State song. The contest closed before the piece was finished, however, a state song has not been adopted and there is still a chance of its being adopted. Prof. Munden wishes this piece of music to be before all the school children of Texas during the coming year. The students of the East Texas State Teachers College can assist materially in the distribution of this patriotic song by buying a copy and having it sung in the respective schools. At the conclusion Mr. Fling's talk he asked the band to play Texas and the audience sang the song under the leadership of Prof. L. C. Mitchell. This song has been published in a very neat form. The cover design is of Texas Bluebonnets and a Lone Star. Prof. Munden will enter this song in a contest to be held this fall. His sixty piece band will also enter the band contest this fall, and this song will be the feature selection of this snappy musical organization.

### Educational Pictures Here This Week

Tuesday and Thursday nights of this week will be banner nights in the educational features of the summer program of entertainments. At seven o'clock in the College auditorium, on Tuesday and Thursday nights of this week an educational picture of unusual merit will be presented to the public, free of charge. This picture shows the various processes involved in the making of books; every step from the early writings in the sand and cutting in the rocks until our present elaborate systems of book making. These pictures give a clear, simple and yet interesting and full discussion of the profession of bookmaking! beginning with the simpler and gradually showing the progress that has been made in the art of bookmaking.

Commerce people have had the privilege of seeing a number of educational pictures during the last year, however, this is the first one to be presented free of charge. These films are being sent to Professor Wray head of the Department of English, from book publishers, free. This is indeed an opportunity to get a visual picture of one of the greatest industries in the United States. Everyone is invited to come and take advantage of this unusual opportunity offered by Dean Wray and the book manufacturers of America.

Remember the time, Tuesday and Thursday nights at seven o'clock in the auditorium.

### LET'S GO.

For a number of years the Lion football squad has been handicapped by having to enter the hardest of gridiron battles with a small side line reserve. We must eliminate this weakness, now. The only way to have a winning team is to provide a large number of men from which to draw the available material.

If you are acquainted with an athlete of any ability tell him that the Lion squad is going to be a winner this year and if he wants to gain a reputation now is the time to start. We need one hundred good men in the training camp, which opens on September 10th.

With one hundred good men to choose from and our efficient coaching staff, we can not be defeated. Get the men, and with the old E. T. spirit, and good coaching we will emerge T. I. A. A. champions. Are you game? Let's go.

### FRIDAY IS STUNT DAY AT CHAPEL

Every club, class, or college organization will have an opportunity to strut its stuff Friday afternoon at the chapel period. The chapel committee desires that each organization choose representatives to participate in this event. Each organization will be expected to have its representative do some original stunt. Miss English, chairman of the program committee, said that this type of program was highly successful in other colleges where it has been put over in great style.

Come out to chapel Friday afternoon and enjoy a real laugh. Loosen up those summer grouches by joining the crowd in the best series of stunts ever pulled off at the East Texas State Teachers College. Tell your friends about it everybody is expected. If you miss it, you will regret it if you see it you will never forget it.

### WOOD COUNTY CLUB MEETING

### Miller Invents Unique Device

Morris Miller, assistant librarian and creator of stammering styles, has again proved his superior mental ability by inventing a device for reclaiming swallowed chewing gum. The device although very simple in construction is positive in action and sure in results. The device consist of a small cord one end of which is tied to the wearers clothing and the other end is attached to the gum. On finding that you have swallowed your pet confection all that is necessary is to gently grasp the string and hoist the gum back in to its proper sphere. Miller estimates that the average student loses five cents worth of Wrigley's pet confection each month and that this device will save the average student sixty cents per year. He has saved enough spending money since beginning the use of this device to purchase a new hair cut on the installment plan.

THE COLLEGE BATTLE FIELD

I am tired of having my solar plexus punched by the none too blunt point of an umbrella, parasol or sunshade of some shade carrying female.

These sentiments are universal on the part of the men students of the College. Many of whom would join in revolution which would make the French revolution look like a dog fight.

HOT WEATHER AND HARD WORK

There is considerable complaining on the part of the student about the long assignment given by the different professors. Many of the students have the idea that they are entitled to scholastic credits for attendance during the summer regardless of the type and nature of work done.

DOES JUSTICE PREVAIL

The Scopes trial at Dayton, Tennessee, is but another instance to prove that justice no longer prevails in our democratic land; scientific evidence was barred from the stand thereby depriving Scopes of a means of informing the jury of his innocence.

KINDERGARTENS GO TO FAIRYLAND

The Kindergarten children of the East Texas State Teachers Training School were treated to a trip to Fairyland at the home of Miss Boren, on Live Oak street Tuesday evening at 6:30 o'clock.

The beautiful yard was arranged to represent Fairyland. An entrance was arranged by a lattice fence, made mainly of crepe paper with an arch over the gateway.

The children came to the gate riding their cock-horses and singing Fairyland. The gate was opened by Fairies and the children rode in. Mother Goose was there in person with a favor of a jointed white goose with chewing gum between its wings for every child who could recite one of the Mother Goose rhymes.

The children voted to crown Alma Joe Young as queen and Claude Earnest Wright as king of Fairyland. The throne was made in a very realistic manner.

The children made a visit to the home of Nut Cracker and Sugar Dolly—the house being made entirely of ginger snaps and graham crackers. Favors of candy dolls made of all day suckers (for the head) and sugar stick candy (for the body) dressed in crepe paper of the many beautiful shades were there for each little guest.

Other stories were represented but the plot of Fairyland was laid around "Nut Cracker and Sugar Dolly."

The children enjoyed a ride on some real live fairy horses. Another feature was the dolls made of construction paper with small paper bags for heads, these bags being filled with candy. Small paper horns were distributed and the children showed their appreciation in an audible manner.

ice cream cones were served. Besides the children a few grown ups who were guests expressed great appreciation of Miss Boren's effort in behalf of the youngsters and those present have no doubt in their minds about the real joy the 'trip to Fairyland' gave the Kindergarten children.

### EX-STUDENT MARRIES JUNCTION CITY GIRL

A clipping from a paper at Junction City tells of the marriage of a former student of East Texas State Teachers College, Robert H. F. Anderson, brother of Mrs. Ernest Anderson. The bridegroom is well and favorably known in this community, having been born and reared at Fairlie. He was in school here four years ago. The account of the marriage follows:

Miss Ada Mae Ely, the beautiful eighteen year old daughter of Mr. and Mrs. Buford Ely, of Junction City and Rev. Robert H. F. Anderson, aged 22, pastor of the Junction City Christian Church, were granted a marriage license by County Clerk J. B. Nichols Saturday and yesterday, Monday, they motored to Lexington where they were quietly married in the parlors of the Phoenix Hotel at 10:00 a. m., Rev. R. B. Baker, the well known evangelist of Corbin, officiating Mrs. Sue P. Carpenter and son, Jess McKee, of Junction City, warm personal friends of the contracting parties, went to Lexington by train and joined the party at that point. After luncheon at the Phoenix, the happy couple motored to Frankfort, combining business with pleasure, and at 6 p. m. the party of five, named above, met at Shakertown where they enjoyed a delightful repast at the Inn. Miss Ely graduated from the Junction City High School this summer, she is an accomplished young woman in many ways, and is exceedingly popular with all of her acquaintances. Rev. Anderson accepted the pastorate of the Junction City Christian church some six months ago, having come there from Sacramento, Kentucky, where he was engaged in both preaching and teaching, he is a young man of marked ability, and has made a host of warm friends in Junction City during his short stay there. Mr. and Mrs. Anderson have leased the Ford property in Bellevue street where they will begin housekeeping at once. The many friends of this fine young couple extend warmest congratulations, and wish them a long life and much happiness.

### Work Being Rushed On Midland School

Night and day work is being done on the new \$157,000 Midland High School building. President Bob Hill of the Midland school board and W. W. Lackey, superintendent, are having the work rushed to use the building as soon as possible. A large attendance is expected on account of so many new farm families moving here to buy the cheap cotton farming lands.

### Baptist Students Meeting

The Baptist students met in a mass meeting Monday evening at 7 o'clock in front of the Main building on the College campus. Miss Isabel Smith, president of the B. S. U. was in charge of the meeting. Miss Smith led the group in singing the club song and "He lives on High."

Mr Chisholm gave a brief discussion of the speeches made at the Woodlake encampment, commenting especially on Dr. Hill's address entitled, "Dealing With the Future."

Palmore Curry discussed the social features of the encampment. We are not surprised to hear that the group from the East Texas State Teachers College informed the other members of the encampment who they were and where they were from. We can hardly imagine the E. T. group playing the part of a graveyard scene in the stunt party given on Monday evening. Let your imagination conceive of Palmore Curry wrapped in a sheet and setting in a position to imitate a monument up on whose back was the following inscription.

Tread softly all who pass Here lies the body of John R. Hill. He thought his foot was on the brake

But alas! it was on the gas. Rev. Roper gave the students a very interesting talk assuring the student of his co-operation in the great work they have undertaken in the building of a Baptist building for students.

Mr. E. H. Wray, teacher of the Baptist Young People's class, expressed his desire to see the completion of the building and said that in every school were to be found two kinds of people: the outward or forward-looking people and the self-centered or inward looking people. The outlooking people seek training in order to be able to help humanity. These are the real contributor to the worthy causes of life and leave a heritage to the institution of their adoption. The self centered people get from the school of their choice every possible asset without sharing in any of its liabilities.

We are sincerely hopeful that the majority of the Baptist students of this school are of the forward looking type and will respond to the cause we have undertaken to carry over to our successors.

The meeting was dismissed with prayer by Rev. Roper.

### Editor Slugged

The news item box over the East Texas office door contained a surprise for the staff Friday morning. A neatly addressed pink envelope, perfumed, bordered with a narrow band of gold, was found in the box addressed to the Editor-in-Chief. The letter follows:

Commerce, Texas, July 16. Editor The East Texan: Dearest Sweet Pea:

Do you carrot all for me? My heart beats for you with your radish hair and your turnip nose. Believe me you are the apple of my eye.

Give me a date. If we cantelope, lettuce us marry any way. Kershaw I know we would be a happy pear.

Love and flowers,

### WEST TEXAS TEACHERS SCHEDULE ANNOUNCED

Following is the schedule for the gridiron season for West Texas State Teachers College:

Oct. 3—Montezuma Baptist College at Canyon.

Oct. 17.—New Mexico University at Canyon.

Oct. 24.—Simmons University at Abilene.

Oct. 31.—North Texas Teachers at Canyon (home-coming game).

Nov. 11.—New Mexico Military Institute at Roswell.

Nov. 20.—Daniel Bake rat Canyon.

Nov. 26.—Texas Tech at Lubbock.

Athletic authorities of the college announced that the first football game of the 1925 gridiron season will be played Sept. 26 at Amarillo on the Tri-State Fair grounds. The opposing team for this game has not yet been chosen. It is rumored that the Clarendon College Bulldogs will oppose the Buffaloes at the Tri-State game. This has not been officially announced.

The Texas Tech will meet the Buffaloes for the first time on Turkey Day, the game to take place at Lubbock. It is probable that a two-year contract will be entered into, bringing the Tech eleven to Canyon in 1926. The home-coming game of the 1925 season will be with the Denton Teachers College October 3. This will be the outstanding game of the season if plans which are now taking shape are carried out.

No definite announcements have yet been made regarding the Buffalo fall training camp. Oscar Eckhart, Buffalo football coach, is building a reputation like that of President Coolidge by the amount of talking which he does not do. He has nothing to say except that the Buffalo fans will lose their worries after they see the first clash of the season.
