Hospital Notes

During the first week of the summer semester few patients have been confined to the hospital.

At the present time, Dr. McCallister is recuperating from influenza. After a few days in the Whiteley Center, he has recovered from an attack of malaria.

Charles Russell has also recovered from a malarial illness. He would have been discharged from the hospital had he not received treatment for an infected wound.

Dr. McCallister has received the first aid treatment since the beginning of the summer term.

Wanted To Play For All-College Dance At Whitley Gymnasium Tonight

For the first all-college dance of the summer, the Kappa, Delta, and other fraternities on the campus will bring to the Whitley Gymnasium a dance at 8 o'clock tonight.

The rhythmic music of the popular French masters is well known here and the dance will be given during the last year. Wooden, furnished the music for two or three nights during the long semester and his musicians also provided the schedules for the Marjorie annual dance in April.

Professional Letter-Writer Pens Messages For Only Fifty Cents

Love-making by mail is often a hard job for college-men. Some students, however, are able to write white sheets of paper with sentimental messages.

"How can I get five in my letters to Lulu when I have other things to do?" asks a student who asks Fraternity Friends. And Security Study wonders about the same thing in regard to her correspondence with the grocery clerk.

Such services are no longer necessary because a University student, Pleasant, Hildreth, Sedgewick, has organized a bureau to write love letters for students.

For just 50 cents, Miss Secretary will spare you the sickness of smoking a couple packages of cigarettes every day, the tedium of your rug and finally require a "Thank You" letter to get out a balanced check.

It matters what kind of letter you write—long, short, boring or witty—but you probably will get a letter, even blank verse and dirty verse are also part of her service.

If it's a tactical letter you want, then she sets a value for whether for your two. Fraternity friends, can fashion it as skillful as they wish, but you'll have to pay extra for the same extra bucks onto the allowance.

Lovers Object To Being Kept From Observatory Hill

It's dark on Observatory Hill at the University of Wisconsin—anyone who has been there has been harried by chains stretched across the hill.

Why are you perfecting the building of the observatory so that light won't interfere with the scientific work?" asked an Hildreth, Sedgewick. "The building interferes with the independence of youth," another fellow remarked.

"The great mass of lovers says that the observatory interferes with their work," said another. "The building interferes with the independence of youth," another fellow remarked.

The Palace is featuring two outstanding pictures this week. Everybody who has seen "Good Old Soak" starting that ever popular bit, Wallace Berry. He lives up to the standard of being one of Hollywood's greatest stars. For the ladies we give that new sensational star of "Lovers of London," Loreta Young, co-starred with that super-sophisticated lady, Loreta Young and the debaucher gentleman Adolph Menjou. Together these give us "Lovers of London," Loreta Young, co-starred with that leading for a thrill see "Tyne Power and Loreta Young in "Cafe Metropole."

Wednesday and Thursday "Cafe Metropole" unites two of the screen's most famous lovers, Loreta Young and Tyne Power. These two exciting sweet-hearts brings us moonlight that is as beautiful as the stars, and as romantic as love itself on the Seine. Menjou operates a smart Parisian cafe learns that a lot of American friends, Charles King, his sister Helen Westwood and his daughter, Loreta Young, are waiting at the cafe for every night. Tyne Power, a gay young patron of the cafe, goes home at night, and not having any money to leave in payment, Menjou forces Power to win the affection of Loreta, the American actress and a marriage settlement from her father. Loreta Young, Helen Westwood and Charles King are not to be counted as he is going to be, but being in Paris she decides to be swept off her feet. Her daughter even gets take place in an incredibly young manner. Menjou finally taking a surprising turn. You'll like it.

Friday "Time Out For Romance" with Claire Trevor and Fredric March brings a new type of comedy to the screen. Andrews Tomba, father of a "Chick" learns that she is about to be married to a fake Count. Andrews Tomba returns a million dollars to release his daughter, Heartbroken, Claire starts hitch hicking to California. She is picked up by Michael, who is usually "all in" with her. With police on her trail, with stolen diamonds which have been hidden in the car, complications start thick and fast. A furious action on wheels, with every second crammed with thrills and exciting adventure scenes. "Time Out For Romance" Saturday "King For Gamblers" a story ripped from the headlines of today's paper—the story behind the headlines of the slot-machine racket, how it works, and how a thousand murder-lure leads a great city. The cast includes: Claire Trevor, Lloyd Nolan and Larry Crabbe. Steve Kakos underworld card-counter, the usual "all in" with her. He falls in love with Dixie (Claire Trevor) right close home. She is in love with Jim Adams, newspaper man. A friend of Dixie is murdered by Kakos. Jim is appointed to track him down. It is packed full of thrills from start to finish. "The Sunday Kid" Sunday "Good Old Soak" starring Wallace Berry is one of the outstanding films of the year. Wallace Berry ("Chin Hawley"), the "Old Soak," sells out his business in order to have more time to search for certain liquid re-treatments, which "prohibition had made hard to find. His two children work any man's job for the world. "The Sunday Kid" the mob, steals a group of bonds held by his mother, in order to get funds for a night club drooper. He turns them over to his cousin Webster, who makes a big profit. "The Old Soak" is suggested of the times and happens home. He returns in time to make things right. "The Sunday Kid" is a picture which is neatly balanced as the plot unfolds.

Monday "The Football Star" featuring Gai Patrick, Richard Christie and Tom Brown. The boys conquer Centre on a big time gambler, whose wife, Gai Patrick, gives him to understand that she must give.

This Collegiate World Of Ours

Ever since Helen of Troy kidnaped the boys into thinking her face was worth the launching of 1,200 ships and a lengthy war—and before that, women have been making men so foolish things.

The beauty that makes men transform themselves into long-cared, Democratic symbols worked off a romantic freshman at Princeton University who met a lovely, blond at a spring party. Introduced with her beauty, he staggered home that night and pronounced her a Hyacinth-burner letter.

But when it comes time to address the envelope, he realized he had failed to get her name and address. Undaunted, he sent the letter to "The Most Wonderful Girl in South Orange, N. J." A few days later it returned unopened and marked "C's Left Hand Friend," to "The Dumbest Boy at Princeton."

● This Week

This week marks the beginning of junior classes, long pencils and new lockers. We must also mention the longer periods and new profs.

White Strolling ... around the campus we notice that everyone is taking advantage of the shady places. WANDA McTAVLEY and GARLAND BUTTON were resting near the Main Building on a "soft" concrete bench ... while LOTTIE BELLE McE SHALL and EVELYN HOOD seemed to prefer the grass under the leaning hickery tree near the Library.

We See That ... STEVE MATTHEWS is back on the campus ... JIMMY HENDRIX and DAVID WILLIAMS are turning up in the most unexpected places ... and BYRON LEWRIGHT is another "ex" that is back ... working in the library ... HAROLD (better known as "KING") NEAL is still courting ELIZABETH SHALPIN ... He, like other successful "candidates" is still speaking to acquaintances.

It Seems That ... MARY FRANCES SALMON and CLYDE RICHANAN have learned how to write checks ... if they didn't already know ... WENDY HENDRIX and DAVID WILLIAMS are both working in the registrar's office ... they should be able to get some counting done as soon as the enrollment lists are over ... THE MARY BARUTTE is helping MARY HULL in the Training School office this week ... Her best weather can't keep ALBERT MENA PERRY from working on her master's degree.

Everybody Dance ... with the Kalris Wednesday night ... WINIFRED WEIR says that it's going to really get some "bumps" during the week will be humming ... everybody trying to get his permit ... and some forgetting ... phoning in on the radio and trying to talk him out of a permit about 8 o'clock Wednesday night.

Hit Of The Season ... THE FRENCH CLUBBING with EMBESIA LITZ is sponsoring an Amateur Show ... and the main attraction is to be SONY NYBY ... a professional and said to be perfectly good ... anyway, he is a licensed agent for the Hollywood Dancing School ... naturally the entrants are all seag.

Snooper' Around ... We hear that BILLY SHYVE has withdrawn from all triangles ... PRESTON TAYLOR has been making the little freshmen girls find their way around the buildings ... All the benches have been moved from their usual places ... probably because the lawn-movers are becoming more popular ... we caught the new drum major, HENRY GRADY YOUNG, trying his best to get a "bump" ... he says somebody tells us that BERNICE HENSON has been giving him some pointers ... at Baton training!

We Seen-Correction, Saw ... RY VELYCE CASTELL walking home alone ... where is he, RY VELYCE? JACK SMITH without a cigar ... believe it or not ... SALEY COLES and KITTY RYTH LAWLER together again after a brief ... shall we say, disagreement.

We Hear ... that ELSIE WYALACE had the East Texas Editor that she didn't like the first issue of his paper ... what's the matter, ELSIE, didn't you have your name in it enough already ... when people asking what the changes to be made in the East Texas will be ... this issue answers that.

Honoring ... HELEN CHADWICK ... FRANCES FREEMAN ... JUDITH TITTLE ... and LILLIAN SHELTON ... six's last term is quite a nice record.

Some Freshmen ... were seen gazing at the sundial ... have been trying to make it in 2:30 ... are learning that the East Texans are free ... are trying to find the upperclassmen who sold them cheap tickets ... are wondering if College stores grain in the smokesack ... why they are here and what it is all about ... search us.

● Clippings ...

By Margaret Cornelius I want to have all summer-long. I want to love a happy song. I want to exist just for the day. Not thought for the morrow. To cause delay. I want to dance the whole night long. To be light and drifting until the dawn. Until the winter cold doles chill my heart. I want to live just like the lark. For what it has and yet be freer. I want to love and yet be free.

Modern girl is a vision at night and a sight in the morning. Get Bye Behind Me Satan Blue eyes glazed at mine. Veination Slight hand clasped mine. Palpitating Fair hair brushed mine. Expedition Red lips close to mine. Temptation Footstep. Damnation

"Darling," he whispered, "I never loved but thee," said the maid, "We must part, no suitors for me."

A Grammatical Kiss A kiss is always a pronoun because she stands for it. It is a conjunction because it connects. It is plural because one kiss for another. It is singular because there is nothing like it. It is imaginative and feminine gender mixed, therefore.

The trouble with the girl that is sweet enough to eat is that she does. A college rock is like a fisherman; they both feed a line in hopes that they can get a good catch.

She: "Goodnight, dear. He: "None was."

Secret of Success The first trick for success that women minds a note of was: "If at first you don't succeed, cry and cry again."

Professor: "And can anyone tell me what a dream is?" Alice: Alfred (Cromwell): "Please, I can. It's noxious when you are asleep."

Daily Definitions A vice man is one who "goes" a lot. Matrimony is not a word; it's a sentence. The object of it is she. "Jeddy" - The friendship - one woman has for another.

Collegiate Comments

By James Gordon

Denton's Weekly Note ... on the day's news remains as "one of the few collegiate enthusiasts worried about world problems. He advocates a moratorium on usury to usury from slot and shell in Europe while "Bill Slay" of the Junior Colleague points out the futility of the effort in proving that students are socially, not sociologically, minded. They come to school to play. Such will make most excellent cannon fodder soon."

That We Slip ... in another grade between the seventh and eighth as have the Amaveth Schools is the suggestion of the West Texas State Printer. Instead of adding another it would be far better to chop that scalp half off. It almost floored us.

Only Three Little ... sports stories are featured in the All-American Missouri at Kirksville, Missouri. And that is where the Lions will travel out of state to show their stuff next fall. I undoubtedly they will scare up a football team around there by that time.

One Time Sports ... scribble of the sheet, Kingfish Shirey got his name in today's college paper today week. He had number two ring on a two man paper what was a loving cup. The peanut country is doing well.

Lass-o' Ladies ... cause a lady that should be very discouraging to those career women. Miss-Fantasia of dressing fash and low corner to Hollywood says it is still a man's world. Women can't get out of doors, inspire confidence, and are not aggressive and they have two strikes on them at the start. Some may challenge her reasons.

You Dance Tonight ... at a luck a pair while P. C. U. gets in forty cent rate with only 80 students enrolled. How? When they began their dance a few years ago, the sponsorship was reserved to the student council, which provides the entertainment at all. Elimination of profit dances with the school and state furnishing the building and lights and including a large part of the student body in the fun would make our school even more democratic. But listen to the howl go on.

Finding Our Place ...

Problems confronting the most of us concern primarily our future in this world. Finding a place in the world is our biggest job.

Every year hundreds of teachers are thrown out of work because of poor qualifications. Some other persons come along who is better qualified - he has a letter equipped himself for finding his place in the world. The person best suited for the work gets the job. There is no place for the man who can do the work and is always forging ahead.

Many times we hear complaints from those needing adjustment to the effect that an education is of no advantage in these times of competition. All that matters is the skill you have. They are not infrequently. True "pull" has lots to do with getting a job but the quality of the work done keeps that.

We have a task before us. So many of us will be taking the sheepskin and have the world to face with only a diploma. We must find our place in the world. It will be no easy task if we go only half prepared. There's always room at the top of the ladder to succeed. To find a place satisfactory to us, we must be better qualified than our fellow man. Well equipped for the work, our place in the world may be easily found and kept if we remain ever alert.

Ferguson Auditorium ...

For eleven long years we have referred to the auditorium in the Education Building as the NEW auditorium. Today we suggest and will hereafter refer to it as Ferguson Auditorium. The auditorium is not yet crumbling at the corners. By fact we are still proud of the whole Education Building as an asset to the point of East Texas State, but if we look long another day we will appear the adequacy of such a meaningless name of a campus unit will become more and more obvious. The age of the auditorium will have become so extensive that confusion will result. Then again when Main has gone the way of the Science Hall and perhaps a few NY buildings, it will appear the fun will begin. And so on, redudeto absurdum.

As to the merits of the new name, there is no question. Dr. A. C. Ferguson is distinguished with long years of faithful service as dean of the college. It has recently assumed office as dean of the graduate school. He is known and beloved by all the students and the alumni as well as the East Texas faculty. Dean Ferguson has not been so honored as to have a building of East Texas named after him, so we consider it a recognition everyone would like to accord him.

East Texan Advertisers ...

If you appreciate the East Texan and if you think it is of any value to the East Texas State Teachers College, then you should think the men who make possible the college paper. The business men of Commerce make the publication of this newspaper possible. They make their contribution by buying advertising. These men believe in the college and in the students. They have always stood behind both. They
