The World's Greatest Happiness

VOL. XI, COMMERCIAL TRADING, SATURDAY, NOV. 17, 1928. NO. 9.

Sousa Presents Two Concerts Here Today

LARGE AUDIENCE INDICATED IN REARLY SALE OF TICKETS

MUSICIANS TO BE GUESTS AT FOOTBALL GAME AFTER CONCERT

John Philip Sousa will play two concerts here at the College Auditorium today. The first concert will commence at 8:00 p. m. in the afternoon and the night presentation will commence at 8:00 p. m. The afternoon concert will be over in time for the football game with the Sousa band.

Mr. Sousa comes to us in his 62nd year. As the director of one of the world's greatest orchestras, he has made his name in the music world. He is now seventy-five years old. This trip is probably the last that he will make to this part of the country.

The two concerts that we will see today will be of such a nature that they will give us a taste of the type of musical art that called true great hundreds of thousands of people here to see Mr. Sousa's orchestra. He never has a failure in any of his performances. He is able to please the public. Those who value the good music will always obtain from Mr. Sousa's programs that "something which will stay."

It is probable that Mr. Sousa will be entertained at the home of President and Mrs. Lutz.

Plans are being made to have the great master and his band appear at the football game after the concert this afternoon.

At press time the majority of the seats in the house had been sold, indicating a large attendance at the concerts.

PEP SQUAD IS INVITED TO BE ABILENE'S GUESTS

The Dandies are in receipt of several letters from members of the Pep squad at McMurry inviting them to be the guests of that organization at the Thanksgiving game.

The Dandies were assured that letter to Robert Flieg that ample provision would be made for their entertainment in the event the game was attended by them.

Plans are being made to attempt to take two buses to Abilene for the forthcoming game which will mean that fifty riders will be able to be on the sidelines when the teams clash. Each bus will carry fifty passengers. About fifty fare for pep squad members will be \$30 each. Arrangements are being made to accommodate as many others who want to go. For those the fare will be somewhat higher.

If possible the Dandies will take the band along.

Money is being raised on the campus through the sale of peanuts.

WORLD AFFAIRS CLUB ELECTS

The World Affairs Club met in regular meeting on November 14, with a very interesting program.

Mr. Robert Lakin gave a very interesting report on the current problem of Mexico and Mrs. Clara gave a summary of the relations between Nicaragua and the United States which gave us much light as to why our mission are in Nicaragua.

The music by Messrs. McLeod and Gibson was enjoyed by all.

The following new members were elected:

Mary Ruth Inman.
Oliver Carter.
Curtis Elliott.
Lillian Reid.
Sam Beardsford.
Mildred Hudson.

Our next meeting will be on Tuesday, November 27, at which time the following program will be given:

Entertainment—Oliver Carter.
Lithuanian-Poland Boundary Question—Curtis Elliott.
Cabinet—Lillian Moore.
Platt Amendment—Juanita Dwyer.

Lions Play Last Home Game Today With San Marcos

DOPE SHOWS EAST TEXAS TO HAVE EDGE ON THE VISITORS FROM SOUTH TEXAS

The East Texas State Texas football team defeated Rice University, Denton, defeated San Marcos 17-0, and then Comanches beat Denton. This alone would show that E. T. has a decided edge on the Bobcats. However, dope that Captain Williams back in the bus never be entirely depended upon in a football game.

Last year the Bobcats defeated the Lions by a score of 38-0, and this will perhaps give them a confidence that must be broken down by the Lions.

If the E. T. riders show the fight that they showed in the Denton game it is going to take more than a confidence to beat them.

LIONS WILL MEET MCMURRY IN LAST GAME FOR YEAR

The Lions' journey to Abilene where they will meet the McMurry College Indians in their last game of the season. Although this is the last game of the year for the Lions it is by no means the least because the Indians have a real football team. It was good enough last year to take the number of the other T. J. A. team, and along with that the T. J. A. Championship.

McMurry has lost one conference game this year, losing to Daniel Baker, one of the strongest teams in the conference. Proof of their strength can be found in their victory over Canyon by about twenty points and their crushing defeat of "Nacogdoches" by more than forty points.

The comparative "dope" on these games does not give the Lions any advantage. Results of the Canyon game stand 19-18 in favor of the Lions, while the victory over Nacogdoches the score was 30-10 with the Lions on the big end.

The "dope" on this two games gives the Abilene squad a decided advantage but taken another way it doesn't look so bad. McMurry lost to Texas Tech 7-0. Abilene Christian beat Tech 7-0 while the result of the Abilene Christian E. T. game was 17-0 in favor of the Abilene team. Compared this way the "dope" is not so bad as it even chance in win.

MR. AND MRS. LUTZ IN CAR ACCIDENT

Mr. and Mrs. C. M. Lutz had a most disastrous escape from serious injuries in an accident on last Sunday when their automobile struck home gravel on the Greenville-Idalia highway. The car turned completely over, but the passengers escaped with only minor injuries. Mrs. L. E. McDONALD, wife of Mrs. Lutz, received a broken arm, her hand and is at present in a hospital in Greenville. She is reported as resting well.

The car is in the garage undergoing repairs.

VETERAN GUN GIVEN WEST TEXAS SOCIETY

ALPINE, Tex.—A heavy German machine gun captured in France by the drive on the Champagne sector, which took place in October, 1918, has been loaned to the Museum of the West Texas Scientific and Historical Society here by Bartlett Coon, Superintendent of Schools at Ft. Davis. The Museum is housed in two large rooms of the Main Building of the Sul Ross State Teachers College at Ft. Davis.

Mr. Coon, a graduate of Sul Ross, was a company commander in the 142nd Infantry of the 36th Division. The division is also known as the "Arrowhead" Division. It was composed of Texas and Oklahoma men.

FORENSIC CLUB TO CO-OPERATE WITH P. K. D.

The Forensic Club was organized in the Old Auditorium at 9:45 Friday morning, November 9, for the purpose of cooperating with P. K. D., Delta, national public speaking fraternity.

The club is to meet in conjunction with P. K. D. officers having been selected from the two groups. These officers are as follows:

William Jones, President.
Margaret Kline, Vice Pres.
H. Phillips, Secretary.
W. W. Howard, Reporter.

Plans for the year include study of the debate question "Resolved that a substitution for trial by jury should be adopted." This study will be of first importance.

The club intends to make a great effort to interest everyone who has any talent in the way of forensic activities. Only four members have had experience in inter-collegiate contests. Those who are new in this line of work will have an excellent chance to make the team.

The forensic program for this year is more extensive than formerly. It includes debates with several teachers' colleges, and with other colleges in the state. Several other clubs will be invited to join the home floor, trips for boys and also for girls are planned.

Anyone who is interested in debate, oratory or extemporaneous speaking is invited to come out to the next meeting of the Club.

Monthly meetings spent the week end in Sulphur Springs.

Ellen Lewis was in Commo last week end.

Dorothy Kline spent the week end in Point.

Mildred Lamb spent the week end at her home in Winfield.

Annie Mae Combs spent the week end at her home in Quilbuck.

Josephine Houston was in Winfield last week end.

MANY PARENTS ARE PRESENT FOR ARMISTICE DAY

Especially three hundred parents were present at the Father-Mothers' Armistice day program Monday, when, under a clear sky the signing of the Armistice ten years ago was celebrated.

After the outdoor program, which included speeches by President Watkins and L.illard Bales, and drills by the band, pep squads of the High School Training School and the Police American Legion and the Boy Scouts, the crowd repaired to the auditorium of the Educational Building, where the remainder of the program was carried out.

As the audience was passing into an auditorium a number was rendered on the pipe organ. There was a short silent picture, during which everyone in the auditorium spent their "Twenty-Five Minutes" by the audience. Indeed, Wills, by the audience. Indeed, Wills, by the audience. Indeed, Wills, by the audience.

Misses Max Bruce was in Colorado last week end.

BUSKINS TO GIVE WEINER ROAST MON.

The "Bushman" a play which was to have been given by Speech 212 class last Tuesday for the Buskin Club was postponed until the next meeting. At that time the play will be presented with a cast that has already been announced. The presentation is to begin promptly at 8:30.

A committee has been appointed to select sites for the club. Those on the committee are Bonnie Holley, Mow Roy, and Arthur Taylor.

At the same meeting a reading in negro dialect was given by Miss Lillian Cooper.

Plans have been made for a weiner roast to be given by the club Monday evening, November 19th. The party will leave the campus at 5:30 p. m.

—Reporter.

Josephine Houston was in Winfield last week end.

CO-ED DANCE IS SOCIAL SUCCESS

The Pep Squad, sponsored by Mr. Kibler, gave a great dance in the new Gymnasium Wednesday evening, November 7.

Music for the occasion was furnished by Mr. Denton's twelve piece orchestra, which group of musicians made those who were at first a little unenthusiastic come out of it and get fully into the swing.

The dance began at 8:00 o'clock p. m. and lasted until 10:30 when the band gave the finishing touches with "Home Sweet Home."

Decorations for the affair were blue and gold, and silver, and varicolored balloons. The latter caused a most desirable effect at the end of the dance on the part of those who wished to keep something for a souvenir.

As was the custom at the summer dance, the practice of girls tagging was used and proved to be really popular with both sexes. Some of the more timid ladies appeared a little at first when they were first tagged and left standing in the middle of the floor alone. However, this feeling did not last long when the girls became accustomed to marching up and grabbing a boy for dancing.

There were about twenty couples in attendance at the affair.

The dance was chaperoned by Misses Hubbell and English, Mrs. Lutz and Deans Wray and Kibler.

Ella Hendon spent the week end in Dallas.

Florence Smith spent the last week end in Sulphur Springs.

Elizabeth Shaw spent the past week end in Hanger Grove.

Ganette Harper was in Winfield last week end.

Bessie Rice spent the past week end in Koonick.

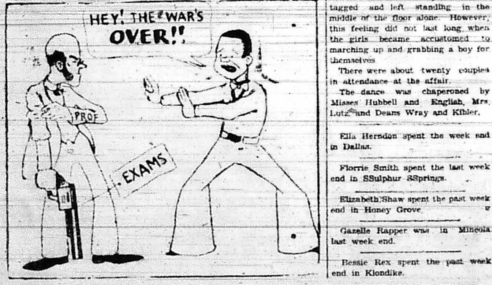

How E. T. Defeated The Fighting Denton Eagles

The following is a play by account of how the "Red" Texas team secured their marvelous comeback last week and defeated the Denton Eagles after it seemed that look had no chance to win.

First Quarter
The Lions won the toss and chose to receive with their backs to the field, defending the north goal.

Freeman kicked the ball on the 10-yard line and the ball on the Lions 40.

HOW MANY PRESIDENTS LIKE THIS?

Completeness of spirit among the students and faculty of any institution is a rare and commendable thing. Usually there is a certain element in an institution that lags and pulls back on the enthusiasm of the school. Sometimes this fault is found in the faculty, sometimes in the student body. But who saw the shirt-tail parade that took place after the Denton game last Friday? Was there any lagging behind there? Well, hardly. The team had given the school all that they had, and that turned out to be more than enough. Was there anyone who failed to show that famous "E. T. Spirit"? Well, very few, if any.

During the pep rally that followed the shirt-tail parade, Dr. Whitley, the President of our institution, did a thing that a few falsely-modest students did not have the courage to do. He got up before the students and came out with his shirt-tail. I wonder how many presidents of similar institutions could have been through enough sports to do that. Most men of similar rank believe that it is their position to uphold the dignity of the school before all else. Very good, President Whitley does just right, but he does not let dignity overshadow loyalty and sportsmanship. By example and probably a tradition has been set for the College. Let's remember it and show that we, too, are not afflicted with that insidious disease, DIGNITYTIS.

THE LAW OF OBEDIENCE

The first item in the common-sense creed is obedience. Do your work with whole heart! Revolt is sometimes necessary, but the man who mixes revolt and obedience is doomed to disappoint himself and everybody with his own efforts. To flatter work with protest is to fail absolutely.

When you revolt, why, revolt—climb, get out, hike, defy; tell everybody and everything to go to limbo! That dispenses of the case. You thus separate yourself entirely from those who have served—no one misunderstands you—you have deserted yourself.

But to protest to obey, and yet carry in your heart the spirit of revolt, is to do half-hearted and slipshod work.

If revolt and obedience are equal, your engine will stop on the center and you benefit nobody, not even yourself.

The spirit of obedience is the controlling impulse of the receptive mind and the hospitable heart.

There are boats that mind the helm and boats that don't. Those that don't get holes knocked in them sooner or later. Aton.

MASTER YOURSELF

The person who has the strength of loyalty to himself is, in my mind, a brave warrior. There are streaks of hard pan in the character of each of us which are blended in with the pure one so that the pure one is almost imperceptible. Few of us have the ability to distinguish between the hard pan, that which should be blasted out, and the real ore, that which is to be cultivated. But to those few, those words are dedicated. You are the hero, without a loss of charm. You believe in certain ideas; you will not fail, consecrate your life to the fulfillment of these ideas. Offer it before you sacrifice in the true to one's self than to let matters slide as our friends tell us it should. It may be slightly unscientific at times but we love best those things for which we sacrifice most. You do not know and are free to confess are able to lead others and help plant ideas. Your personalities have the strength to weather in your dreams.—Hoodson.

Correction

In a recent issue of the East Texan, in which was published a feature story on the English Department, the statement was made that Dean Wray received his B. S. Degree from Chicago University. The East Texan wishes to correct this mistake. Dean Wray received his Bachelor degree from Yale University, and later went to the University of Chicago where he received his Master Degree. The East Texan begs its readers pardon for this mistake.

Astronomy and Scientific Progress

The following article is the first of a series giving a summary of facts on astronomy prepared and offered by Prof. J. M. Hiebock in the trial at Paris, to set aside the McDonald claim, which he purchased \$120,000 to the University of Texas to build an astronomical observatory. This article deals with the values of Astronomy presented under the following heads: (1) Practical Values, (2) Scientific Values, (3) Cultural Values, (4) Intellectual Values, (5) Aesthetic Values.

Practical Values
1. The navigation of the seas is absolutely dependent upon the practical applications of the facts of astronomy.

2. The science of astronomy has enabled us to establish definitely the exact lengths of time units requisite for the calendar.

3. Astronomy has given us the knowledge of the exact size and shape of the earth, thereby enabling us to make maps of the continents and oceans.

4. A knowledge of astronomy has enabled us to determine the exact units of time which made it possible to construct clock and watches with less degree of exactness than could be guided by them without error in all parts of the earth.

5. A knowledge of astronomy has enabled us to determine the exact positions of the stars and planets and to determine the prime meridians upon which accurate surveys depend.

6. International boundary lines in many cases are defined by latitude and longitude instead of being determined by natural barriers such as rivers, mountain range, etc. and in all such cases they are located by astronomical observations.

7. A knowledge of astronomy enables us to determine the time between and in connection with the facts of meteorology, makes possible the forecasting of weather. The weather forecasts, based upon scientific analyses of reliable data, are of great value to the farmer, the stock raiser, and the manufacturer of perishable products.

Scientific Values
8. Astronomy is valuable in physics and chemistry because the upper atmosphere is a vast laboratory which with modern instruments can be brought to a considerable extent within reach of the investigator.

9. Astronomy determines the methods to be used in solving problems of mathematical mechanics and thereby serves as a stimulus for research and advancement in this great field of learning.

10. Astronomical observations explain the different phases of the moon, and enable us to compute the sizes, shapes, distances, and movements of the various heavenly bodies.

11. The immense importance of mechanics in modern life is due directly and indirectly to the science of astronomy.

12. The past and future development of geography has been, and will continue to be, dependent upon a knowledge of astronomy.

13. Astronomy will continue to be of great importance in the research and advancement of tuber sciences.

14. The study of astronomy cultivates the habit of scientific inquiry, and the imagination. It receives from special exercise and development.

15. Astronomy has a profound influence on the minds of those who devote themselves to it, and the number of those who are interested in it is increasing rapidly. In her simplicity it reveals truth and honestly seeks it, whereas the search mania, in the second place, the subject matter often gives a breadth of vision which is not obtained otherwise.

The greatest value of astronomy to the individual at the present time lies in its appeal to the intellect. The contemplation of the great worlds outside the earth; the study of the stars individually in clusters, or in vast systems; the realization that the universe is a universe of order subject to law; the gradual discovery of the laws in accordance with which it operates and the thoughts aroused as to its origin, purpose, and future development, will more than repay the investment of time and effort necessary to reach

then possible.
Cultural Values
17. A knowledge of astronomy has greatly eliminated superstitious beliefs in regard to comets, meteors, eclipses, the planting of crops in certain favorite phases of the moon, and by means of scientific knowledge great advances have been made in agriculture.

18. The knowledge of the natural phenomena governing the sun, planets, and stars has made it possible to settle disputes of the dates of ancient battles and the reigns of kings.

19. Astronomy familiarizes the people with the heavenly bodies by knowing how to recognize the stars and constellations.

20. Astronomy broadens a man's life, and gives him a proper sense of his place and relation on the earth and to the great universe about him.

Aesthetic Values
21. Astronomy is the only science which gives man a knowledge of the visible universe.

22. The great French mathematician and astronomer, in place, in speaking of the beauties of astronomy said: "Contemplated as one grand whole, astronomy is the most beautiful monument of the human mind; the noblest record of its intelligence."
23. Moulton, one of the most eminent of modern astronomers said: "A theory which gives unity to a great variety of observational data is of rare aesthetic value. It is related to the catalogue of the imperfectly correlated facts upon which it is based, as a finished and magnificent edifice to the untidy heaps of stone, brick, and wood from which it was built."
The next article will deal with the Spiritual Influence of Astronomy.

CONVENTIONALITY

I scored all right properly. Have sufficient at all rules, tradition, form.
I do not care that people talk of what I do or lack. I storm at it's worth of his thought. And yet I cannot grasp "that I have sought."
—Rege.

yard line Gardner opened the game with 3 yards over L. T. Englin slipped around L. E. for 5 yards on a backward pass play and Gardner made it first down on the Eagles 49 yarder. Gardner picked off two more yards at R. T. and Myrick dashed through center for 4 more. Englin failed to gain and Gardner missed out of bounds on Denton 20 yard line. Cowley fumbled on the first play and R. T. recovered on the Eagle 25 yard stripe. England blew off around R. E. for 9 yards and hit the line one more time for first down on the Denton 9 yard line. A partial bad pass from center and a fumble by Myrick enabled Jones, fleet footed Eagle set to scoop up the leather on the 9 yarder and trampler bound the rectangle for 91 yards and a touchdown. Try for goal was unsuccessful. England received standing deep in E. T. territory and carried the ball back to his own 25 yard stripe. Bedeod inaugurated his first run of the game by bouncing over L. T. for 2 yards. Myrick peeled off 4 yards on center and Gardner made it first down and first down on E. T. 43 yard line. Gardner hit L. T. for 1 yard. Myrick made it same place. On attempted pass the Lions were given the ball on the Eagle 30 yarder after Myrick had been tripped in an effort to receive one. Myrick lost 2 yards on a fumble, but Gardner began with a "bump" spot of the Denton line L. T. on a cross fake. Myrick also answered for yards at L. T. Myrick was intercepted by Denton on their own 16 yard line. Tampke got 3 yards at L. T. Cowley failed to gain over Mattingly and Preeman booted to East Texas 31 yard line. England made no headway at L. E. Myrick dashed up 6 yards at center of line and Gardner got 1 more at L. G. Gardner carried the ball to his own 3 yard line with first down. A Denton pass was completed for 8 yards then Tampke made 3 more at L. T. but Gardner's center play was incomplete then Templeton interrupted a pass standing on his own 44 yard line. Myrick fumbled and lost 2 yards as the first quarter ended. Score, Eagle 6, Lions 0.

Second Period

Gardner booted to Denton 25 yard stripe. Tampke no gain at R. E. Echols got 4 yards off L. T. then one more yard at L. G. Preeman booted to E. T. 38 yard line no return as Myrick fumbled. Bedeod snorted off tackle for 4 yards, then passed around R. E. for 2 yards and a first down. Myrick made 3 yards at R. E. and followed this play with a snorted dash around L. E. for 10 yards and another first down on the Denton 56 yarder. England drove his way around R. E. for 11 yards and a first down. On two plunges at the line Myrick gained and lost 1 yard. Gardner made 3 yards at L. T. On the next play the ball went over. Tampke tore off 5 yards at L. T. Cowley made 2 yards at center and Tampke made first down. Echols made 4 yards at L. T. A pass was incomplete then another try at the line resulted in Myrick again fumbled. Myrick fumbled again but answered 3 yards to 16 yard line. Gardner sliced off 4 yards at L. T. Myrick sliced his way off L. T. for 3 yards then England fumbled the ball around R. E. for first down. Myrick sliced his way off L. T. for 3 yards. Myrick sliced Gardner snorted 1 yard. Williams received a pass from Gardner for 15 yards and first down on the Eagle 22 yard stripe. Johnson tumbled to prevent but was no good. Then he passed to Denton for 29 yards and another first down. England failed to gain at R. E. England took one of Johnson's stiff sticks for 8 yards. Myrick answered 1 yard at L. T. England lost 1 yard and the ball went over on E. T. 22 yard line. Cowley shipped off tackle for 3 yards then he plowed over R. G. for 7 yards. Preeman kicked out on E. T. 40 yard line. A pass Johnson Myrick was good for 11 yards. A pass Johnson to Duncan was no good and E. T. drew a 5 yard penalty. Johnson failed to receive one. Johnson was trapped by a swarm of Denton tacklers and lost 25 yards on the ball ended.

Third Period

Duncan kicked off to Denton who returned the ball for the 28 yard line before being tackled. A pass from Preeman to Lucas netted 20 yards. Tampke shipped off L. E. for 7 yards when he was spilt behind the line of scrimmage by five tacklers. Tampke struck a corner back and returned L. T. again for 5 yards. Preeman pointed to Myrick on his 11 yarder. Myrick dashed through guard for 6 yards then failed to gain on the second down but answered 3 more yards at R. G. before Gardner pushed to R. T. 41

yard chafe mark. Cowley fumbled and lost 2 yards. Tampke made a yard at center then Preeman pointed to E. T. 1 yard line. England went over R. T. for 4 yards then lost 1 yard at the same place. Denton intercepted a pass on their own 46 yard line. Preeman got 6 yards at L. G. Echols made first down at center. Cowley got 4 yards at R. T. and Echols lost one yard at R. E. then he carried the ball to the Lions 27 yard stripe for a first down. Preeman hit the line twice for a gain of 3 yards then lost 7 yards on a cutback play. A pass was incomplete and East Texas took the ball with first ten to go. Myrick laced off 3 yards on a lone run then England hammered thru guard for a first down. Ed got 2 yards at R. E. England answered with a first down after an 11 yard run to put the ball on the Lions 48 yard line. Myrick gained 2 yards at R. E. then laced off a pair of yards at L. E. Then plowed through center for 3 yards and England hammered directly through center for a first down. England sliced off 4 yards at L. E. England laced around R. E. for 6 more yards then Eddie whipped through center for a first down. Fourth Quarter

It will be noticed from the Lions brought the ball a distance of 37 yards without losing it. A "stable" like Myrick and England missed the Eagles' number 1. Myrick played the Eagles' number 1. He got 4 yards. Ed failed to gain on two attempts at the line and a pass from Johnson to Wright was incomplete. Eagles ball first ten to go. Preeman picked up a yard at center on a whiff play. Echols made a yard at the same place and Preeman sliced off 3 more yards at L. G. England booted to the Eagle own 35 yard stripe, and Myrick returned 3 yards. Myrick dashed through center for 10 yards around R. E. for 1 yard. England knocked off 3 yards on two tries at the line. England sliced off 6 more yards and made first down on the fourth try. Myrick was forced out of bounds after 11 yards. England hit the line one more time then Myrick slipped through for a touchdown and Gardner added the extra point. Score, E. T. 7, Denton 5.

Duncan kicked to Preeman who returned to his own 37 yard line. A pass was incomplete for 13 yards. Preeman failed to gain at center and lost 3 yards on an attempted pass. A triple pass was incomplete. Then Preeman pointed out to the Lions 22 yard stripe. E. T.

"THE MAN'S SHOP"

Drew a 5 yard penalty and on a fumble Denton recovered the ball on the East Texas 2 yard mark. On the first play the Eagles again went in to the lead by 12 to 7, when Cowley made a touchdown over L. G. The Eagles kicked off to England, who returned to his own 24 yard line. A pass fell incomplete then Johnson rifled one to Wright which was good for 14 yards sack and all England pounded his way for the remaining distance and a touchdown. Score, Lions 13, Eagles 12.

MANY PARENTS PRESENT

Continued from front page.
Legionists and visitors, L. Dillard Whites then made a short address. Dr. E. W. H. White then made a short address of welcome, citing the fact that this is a number of years Armistice Day has been set for Fathers and Mothers Day.
Cards were then passed out through the audience and the Parents were asked to register.
Dr. Whitley then introduced Mr. Wayne K. Howell of Corsicana, chief speaker of the day.
Mr. Howell's talk was of astounding interest to those who realize what is done in the history of all the world as well as the United States. November 11, 1918 was the picture of peace on the battle front and the various countries when news of the Armistice was received. This history is a story of peace that has been made since he was. The speaker showed that while permanent peace was a thing yet far away, it was not an impossible declaration. It was made with what surprise they were made. The most encouraging sign for real peace.
The last number of the morning program was a truly rare and unique program by Miss Katherine Morris, head of the Wood-DePaul of the College.
This history of the "Song of Man" was a chorus of 800 voices with tenor and soprano solo voices. The chorus was made up of the College and other school clubs. Plans' accompaniment was furnished by Mrs. Leonard Allen and occasional organ accompaniment by Mrs. Lena Rose Fuller. "The Song of Man" was composed by Richard Knott to lyrics by Gilbert Sullivan.
This chorus is the most ambitious yet furnished by the clubs, and its success reflects great credit upon all members of the club and Miss Morris.
Solo passages were presented very effectively by Ray Johnson, tenor and by Marguerite Hazlewood, soprano.
In the afternoon's program was given in the auditorium by the College band.
The following is a listing of the parents who were present at the morning program given in the auditorium. This list is not complete due to the fact that some of the mothers and fathers came in after the cards for registration had been passed out.
Mrs. J. B. Anderson, 1013 Park St., Commerce, Texas.
Mr. and Mrs. W. A. Adams, Van Alstyne, Texas, Route 1.
Mr. and Mrs. C. C. Allen, Van Alstyne, Texas, Route 1.

VETERAN GUN GIVEN

(Continued from page 1)
and has a gallant war record. The machine gun is a heavy, water-cooled gun the type used by the heaviest duty by the German forces. It shoots the 8mm. German military cartridge, and has no doubt been responsible for death of non-American, British, and French.
The gun has a history. It was one of five like guns in a German machine gun unit which was taken by Mr. Conroy's company, but only after a terrible struggle in which all of the German runners and several men in Mr. Conroy's company were killed. Marks of the battle may be still be seen in the water jacket of the weapon. It was for this action that Mr. Conroy then a captain was awarded the French Croix de Guerre for exceptional bravery under fire.
James Fay spent the week end in Mt. Vernon.
Claves Meyer was in more over the last week end.
Ruby Kempos spent Saturday and Sunday in Honey Grove.
Katie Belle Crono spent the week end at her home in Ladonia.
