'PLAYING WITH FIRE'

is the subject to be discussed at the

First Christian Church

Sunday evening, Rev. J. Walter Greep, the pastor, will be back in the pulpit, having held a successful meeting at Kaufman. This subject is of especial interest to young people, many of whom are playing with fire and do not know it. Sound logic interspersed with wit and humor as a savor. A fine program, including a cornet solo by Howard Adams and special vocal selections.

YOU ARE ALWAYS WELCOME.

J. Walter Greep, Pastor

NOTICE

Every man woman, boy and girl in this school will be expected to be in the Parade Friday afternoon. The Parade will form in front of the Main Building promptly at 3 o'clock. Starting there it will march to the Square, thence unbroken to the City Park where the Lions meet the Bob-Cats. Now is the time to show your

loyalty and 'School Spirit' if you possess even an ounce. This bunch "Licked" us last fall in football and we do not intend to let them repeat in base ball, so be in line ready to yell. Bring anything along with you that will make a noise, a horn, bucket and stick, cowbell and other things suitable for noisy purposes.

Miss Marina Phillips motored over to Greenville Friday.

SPRING

Is now here. It's the time of the year to get that old suit renovated. If you want

A NEW SUIT

come in and let us measure you. Tailor made clothes are best.

BASE BALL SAN MARCOS vs E. T. S. N.

The San Marcos "Bob-Cats" will arrive in Commerce for a Two-game series with the East Texas Normal Lions Friday noon. From all available reports this aggregation is going to give the "Lions" a battle for Base Ball honors. At Denton the first of the week, they cleaned the "Eagles" by a 10 to 1 score. The locals are out to avenge that football defeat last fall so all lovers of this particular branch of sport are virtually assured of two days of real base ball. The games will be played at the City Park each afternoon promptly at Four O'clock. The admission to the general public is 35 cents.

KALIR CLUB ELECTS OFFICERS FOR YEAR

Just previous to the meeting of the Federated Clubs, the following officers were elected in the Kalir Klub: Miss Frances Harrison, President. Miss Agatha Law, Vice-President. Miss Mozelle Scaff, Secretary. Miss Grace Marshall, Treasurer. Miss Janice Jernigin, Reporter.

Great things are expected of these officers, and already they have shown great enthusiasm by participating in the Federation Meeting. With the aid of the entire club these officers were able to entertain the club delegates with a six o'clock dinner which was acclaimed as one of the most outstanding features of the entire program.

FEDERATION GIVEN DINNER BY KALIRS

On Thursday evening the Kalir Klub as host to the Third District Texas Federation of Women's Clubs entertained with a six o'clock dinner. The dinner, which was served in the Home Economics Department dining room, was under the supervision of Miss Janice Jernigin, Elizabeth Storrie and Miss Juanita Rice. The music, which consisted of many delightful selections, was furnished by Mrs. T. R. Harris' orchestra.

Miss Frances Harrison, President of the Kalir Klub, presided in a most charming and gracious way. At the same table were seated some of the most prominent ladies of the Federation, including Mrs. R. F. Lindsay, President of the Third District; Mrs. West Stewart, Vice-President; Mrs. J. E. Martin, Sec'y-Treas., Mrs. E. E. Maloney, Chairman local executive committee, and Miss Margie Neil, Member of the Board of Regents of the East Texas State Normal College.

The tables which provided for one hundred guests, were artistically decorated with coral woodbine. The menu was as follows:

Fruit Cocktail
Chicken a la King
Potatoe Roses Creamed Carrots
Tomatoes
Hot Rolls Iced Tea
Salad Cheese Straws
Cherry Ice White Cake
Coffee Mints

Just previous to the Fine Arts program the guests departed, expressing their appreciation of the lovely time afforded them by the Kalir Klub and the ladies in charge.

Misses Katherine Berkstresser and Mary Emery spent Thursday in Greenville.

HOSTESSES SELECTED FOR KALIRS

The following ladies have been recently elected hostesses for the Kalir Klub: Mrs. Walter Acker, Mrs. J. L. Bostick, Mrs. E. H. Wray, Mrs. Thurman Harris, Mrs. E. E. Maloney, Mrs. T. J. Hubbard, Mrs. B. B. Thomas and Mrs. J. D. Jernigin.

LIONS WIN PAIR FROM DALLAS U.

At the expense of several Dallas University pitchers, The Lions calmly proceeded to fatten their batting averages Thursday and Friday of last week. After the first two innings of Thursday's game it was plainly evident that the locals were "right" and when they are that way woe be unto their opponents. This isn't strange when one considers that on the clug there are five men hitting within "The Charmed Circle." It is really pitiful for any team when these gentlemen begin to paste the horsehide all over the lot it just seems as if no amount of pitcher-changing can stem the tide once it's started.

Dallas University has a pretty good ball club and they put up a game exhibition of base-ball, but no team can withstand such terrific hitting as the locals served them with, and win a ball game. That's the long and short of the whole thing.

Aheran, who pitched the second day for the visitors worked exceptionally well but he just didn't get the support that it takes to win a ball game. Johnnie Miller went the nine innings for the East Texas Normal in the opener in his usual masterful way. Never at any time throughout the game did the visitors anything like threaten our lead. The first batter that faced Baker got a stinging single but that was probably because he was "cold" in all he let them down with three hits. Minter, Ross and several other pitchers attempted to withstand that awful onrush of the Native's Bats but all gave it up declaring it a "Bad Job."

Score—17 to 1. E. T.

THE SECOND GAME

E. F. Baker opposed the Visitors on the "Mound" the second day. As usual he pitched an excellent game of ball and received pretty good support at the hand of his mates. True enough, errors put runners on the scored as a result of a timely wallop by Glenn Minter (Dallas S. S.) This Minter was about the only man on the entire Dallas University Club that could hit a ball. E. T. got sixteen hits against their opponents five.

Please page Mr. Johnnie Miller. This illustrious young athlete secured five hits out of as many times at the bat in the game. A homerun, two doubles and two singles. Can you beat it? It seemed as if every man on the team had his eye on the ball, as is evidenced by the way they seemed to hit at will. Harry Flewharty swung "A Wicked Stick" getting a triple, double and a single out of four trips to the rubber. Again the fielding of Breckenridge stood out at short.

KALIR MEETING

The Kalir Klub met Monday, afternoon in the office of the Home Economics department. They report one of the liveliest meetings of the year. They held forth there in an important session until the janitor had to lock the building, then they continued their business at different spots on the campus.

Miss Janice Jernigin was appointed as chairman of the finance committee. She conferred with her committee and formulated some definite plans for raising money to help defray the expenses of the Federation meeting. They report that there will be cold-drinks, peanuts, chewing gum, and Eskimo Pies will be sold at both the big base ball games Friday and Saturday.

Miss Frances Crook was elected Treasurer of the Club to succeed Miss Lucille Hargraves, who has returned to her home in Antlers, Okla. The following new members were legally voted into the club: Miss Ruth Bradshaw, Miss Rae Cornelius, Miss Blanche Hickerson, and Miss Lucille Neal.

Mrs. Amos spent the week end in Wolfe City.

Miss Annie C. Murphy spent Thursday in Greenville.

HIPPODROME MONDAY AND TUESDAY
10c and 30c

CHAPEL THURSDAY

Thursday morning the chapel hour was given to the Athletic Council in order that they might obtain the consent of the student body to rewrite the constitution of the Athletic Association of this College.

Due to a misunderstanding of the purpose in view, quite a heated discussion grew out of the question. There were also technicalities that arose which made matters worse, and the whole hour was taken up with the discussion. Motions were made and seconded, then withdrawn in favor of other motions until finally a motion made by Dime Estes was unanimously accepted by the students allowing the Council to rewrite and revise the Constitution and submit it as revised to the students for their acceptance or rejection.

Among the changes to be made, there is to be a student elected by the students to have charge of the

funds of the Athletic Council in the stead of the treasurer of the school as heretofore. Also there is to be a proportion worked out by which each phase of athletics is to receive a certain proportion of the funds, instead of allowing the first ones of the seasons to have all they can use and running short of funds as there is not very much left for those sports which come later in the season.

We have outgrown our old constitution, and although it is very dear to us, the time has come when it must be revised to fit the present needs as well as the probable needs of the future. The council is not trying to steam-roller anything over us, as some have feared. They are merely trying to provide a remedy for emergencies that have arisen already and for those likely to arise in the future under our old constitution. Think the matter over carefully ad see if you don't think it best to have an up-to-date constitution for the Athletic Association in an up-to-date College composed of up-to-date students.

There has been some agitation of late with regard to the writing of a new constitution for the East Texas State Normal College Athletic Association, and the time is indeed at hand when this should be done. One

of the students who is opposed to the action was heard by the writer to remark that the Ku Klux Klan was operating under practically the same constitution that the Ku Klux had just after the Civil War with the exception that some of the provisions which the old Klan had were not needed now, and that now there were circumstances undreamed of by the ones who framed the old document, which called for certain additions to the new one. This is exactly the point we are trying to make. As the school grows and expands new complications arise which were never thought of when our first constitution was framed for the Association. Of course it is sacred to us as a relic of the former students of the College, but it is not adapted to the present needs. Why not encase the old document in a nice frame and hang it in some spot where it can be viewed by us and also by the students who follow us and in that way keep the sacredness of it before us, and at the same time draft a new constitution which will meet the demands of the time?

Of course a school is to be commended for wanting to keep sacred the memory of the students who have gone before, but will it not do them a greater injustice to thus retard the advancement of the school by keeping all their documents as the absolutely only way to proceed, than to frame theirs and thus show our respect to them and write new ones that are typical of the progress of the school?

The council which has been given the permission to draw up a new constitution is not infallible. We all make our mistakes, so do not be too hasty to accept the new one because it may have some short comings too, but do not hold back on the grounds that it is not just exactly the same words that were used in the old document. The spirit of the two, and

the purposes of them are identical. They each tend towards the greater advancement of our school along the line of athletics, and if we are ever going forward, when is a better time than now? We are perhaps no brighter mentally than those who preceded us here, but here is the thing. Why do girls get new dresses, and why do boys change from short trousers long ones? When a boy goes on the athletic field for a game, why does he not wear a heavy overcoat rather than a light track suit? Is it because the overcoat is not a perfectly good one? No indeed. The other clothes are good enough in their place, but they place limitations upon the wearer so that he may not play as effectively as otherwise. They are hindrance.

Why change our constitution? Has it not served all right in years past? Are there any mis-spelled words in it? Are there any obsolete words in it? These defects might be present in it, true enough, but they are not the things that render it useless now. The real harm lies in the fact that it hinders the school from advancing as it should and keeping step with the other schools of our rank. Think it over, and when the Council presents the new constitution, if it is better than the old one, (and if we did not have confidence in their ability to make it a better one we should not have allowed them to make the changes) even if there are flaws in this one it cannot hinder us more than the old one does, so let's put it over, and show the world that old E. T. is not a dead school, but is in the very front ranks alongside of the best.

BASEBALL TEAM ORGANIZED

Monday night Albert Greenwood assisted by a few business men of the city, organized a baseball team. This is a good move, because there can certainly be no better advertisement for a town than a good baseball club. Suffice it to say, this club will be a good one with Mr. Greenwood and Horace Powell behind it, because these two men usually put across anything they attempt.

Horace Powell was elected manager, Price Rainy, Captains, and Amos Knight, Sec.-Treas.

The first game will be played here with Wolfe City, if weather conditions are favorable, Thursday.

The personnel of the team is chiefly Commerce boys.

Mr. Greenwood takes this means of thanking those business firms and individuals who contributed toward the organization of the club when he called on them. Anyone desiring to

contribute to this fund can do so by calling at his cafe. It is the intention of the management to make the club self-supporting, so get in line and put your shoulder to the wheel.

"DIXIE" PLAYED BY 1,500 MUSICIANS

The stirring strains of "Dixie" should be heard for miles when the massed bands which are to assemble at Dallas during Durbar Week play that favorite air in the evening concert in front of the grand stand at Fair Park, on the opening night of the festival, Monday, May 22.

It is stated that at least fifty bands will enter the championship contest in the afternoon and all of them will play in the night concert. As the average number of men in each band will be 30, it is assumed that at least 1,500 musicians will participate—the largest number of instrumentalists ever brought together in the southwest, it is claimed.

The afternoon championship contest is attracting much attention. The prizes are said to range from a silver trophy and \$400 in cash for the top prize down to \$25.00 for the lowest prize in the easiest class. The premium list totals over \$1,750.

MUCH PRAISE FOR SACRED CONCERT

Despite the inclement weather of Sunday afternoon, the Fifth Sacred Concert, under the efficient direction of Miss Virgean England, was given to a large and appreciative audience at 3:30 o'clock in the Methodist church.

Two Anthems by a chorus of 25 voices, accompanied by Miss Adelyne Stapp, was inspiring. Its equal is seldom heard in places of this size.

The soprano and tenor duet by Miss Elsie Goldsworthy and Mr. Thos. B. Barnette, with Miss Virgean England, accompanist, revealed rare talent.

A stringquartet, which included Mr. Horace Adams, Miss Pearl DeJernett, Miss Chloe Satcher and Miss England, accompanist, was particularly pleasing.

Mrs. John Brigance's voice was never better or more effective than on this occasion when she rendered a soprano solo, with Miss England, accompanist.

A cornet solo, with orchestra by Dudley Wynn, with Miss Schaff at the piano, was rendered with great effect and received with appreciation.

A rare treat for lovers of harmony in voice was found in a mixed quartet, composed of Mesdames Matt Martin, Ernest Gaylon and Messrs. Naaman Anders and Martin Boucher. Rev. J. G. M. Ramsey's address on, "The Place of Music in Modern Education," was up to his usual standard of thinking and speaking. Rev. Ramsey is an excellent and effective speaker.

He perceives that music is steadily rising higher in the scheme of things, but has not yet reached its proper sphere.

He reminded the audience of the peculiar and as yet little understood effect and influence that music is known to have wielded in the human family since before the days of Saul ad David.

Music deserves our best attention. Its power and influence is three-fold Mental, Moral and Utilitarian.

He made an effective comparison between the known effects of the modern American music and the quality of music rendered in the sacred concerts, and some of the popular hymns.

The sacred concerts have come to stay. The next one will be held in May.

Relic of Long-Past Age.

While cutting peat in the Leithen headwater area, the shepherds unearthed a horn, which may have belonged to Bos primigenius or Bos longifrons, the wild oxen that roamed over Britain from the glacial age to near historic times. It was found at a depth of four feet from the surface, and the shepherds also averred that there was a small patch of brown hair attached, which is quite probable, as the peat would act as a preservative. —London Mail.

Wasting Light.

A lighting expert says that about \$200,000,000 worth of light is wasted every year in this country through failure to keep windows, globes, reflectors and other light sources free from dust and dirt. The lighting bill for the nation is about \$500,000,000, and if this expert is right, we are wasting two-fifths of this.

GOVERNMENT INVESTMENTS

With the new issue of Treasury Savings Certificates, registered series, yielding a higher rate of interest— if held until maturity—than any other Government obligation now obtainable on the market, investments in these securities locally are perceptibly increasing, according to Postmaster C. J. Debenport.

"These securities are issued in three attractive denominations, and are discounted to sell at \$800 per \$1,000; \$80 per \$100; \$20 per \$25.

"Held for a period of five years, Treasury Savings Certificates return a total yield of 25% for the period; or, in other words, every dollar invested in this security increases itself by one-fourth in five years," the postmaster pointed out.

"The following tabulation gives investment yield information in Treasury Savings Certificates asked for almost daily by patrons of this office: \$4,000 invested in Treasury Savings Certificates purchases five of the \$1,000 Certificates and becomes \$5,000 at the expiration of five years; \$3,200 increases itself to \$4,000; \$2,400 grows to \$3,000; \$1,600 increases itself to \$2,000; \$800 becomes \$1,000; \$80 grows to \$100; \$20 increases itself by one fourth and becomes \$25.

"These securities are not subject to any market fluctuations; and when they are sold, the Government gives the purchaser complete protection in event of loss or theft, damage or loss in any other way whatsoever.

"This security is a direct obligation of the United States Government; runs for a period of five years from date of purchase, but it may be cashed at any time before maturity, in which event it yields the purchase price plus accrued interest at the rate of about 3-1-2 per cent compounded semi-annually.

"These securities are obtainable from the local office in three denominations: \$1,000, \$100 and \$25; however no person will be permitted to buy more than \$5,000 (maturity value) in his own name."

A Snake Story

Outrivaling any fish story ever told, is a snake story which became known here today, in which a beautiful gold ring adorned a snake's neck.

Bateman Fulfer, son of Sam Fulfer, living near Fairlie on the Kelly farm, was out in the pasture recently looking for turkey nests when he surprised a chicken snake, and as is the custom he killed it. It was about three feet long.

A closer inspection revealed a beautiful arrayment of glittering stones adorning the snake's neck.

Investigation revealed that the snake wore about a number 7 1-2 finger ring of gold with an oblong silver mounting an inch long, closely set with five rubies, surrounded by 17 rhinestones.

The ring was about eight inches from the snake's head and had been making inroads into the flesh, cutting in until only the mounting was visible.

BOYS WEEK IS GROWING NEAR

All indications are that Boys Week is going to be a sure enough big one for Commerce. A very interesting and instructive program is arranged, one that is of vital interest to every boy in town, winding up with a wonderful field day and feast at the Park.

It is the hope of the Rotary Club that the parents of every boy between six and eighteen years of age will become interested in Boys Week, and see that their boys take part in each day's events.

The various features of the week are each and every one interesting and beneficial to the boy, and will be appreciated by him, let us make it our business to see that every boy participates.

There will be no expense whatever to the boys taking part in the program, so do not let the boy hesitate on this account.

Power for Good and Evil.
Into the hands of every individual is given a marvelous power for good or for evil—the silent, unconscious, unseen influence of his life. This is simply the constant radiation of what a man really is, not what he pretends to be. Life is a state of constant radiation and absorption; to exist is to radiate; to exist is to be the recipient of radiations.

Mrs. Walter Acker spent Monday in Dallas.

Give the Best That's in You.
 The man who persistently and determinedly fills his position in the best possible way will eventually succeed from a monetary standpoint, not mention the good he is doing by setting such an example, and his infinite gain in character and self-respect.

ILLUSTRATED LECTURE AT THE BAPTIST CHURCH

Rev. and Mrs. John Carney passed through here in their "Gospel Car" stopping over Sunday en route to Delta county.

Rev. Carney gave an illustrated lecture to a full house at the Baptist church Sunday morning at the preaching hour.

There are only two kinds of folks in Commerce, the good and the bad, the preacher said.

There are 436 boys in the Gatsville reformatory and every one of them were smokers of cigarettes.

The ultra-smart were reminded that most everything they knew, or thought they knew, was learned from someone else. Nobody has a monopoly on wisdom.

Quit harping about "sacrificing for the Lord" demanded the preacher. Nobody sacrifices today. If you doubt this statement, compare your sacrificial act with that of the Son of God.

In the past 25 years Mr. Carney has fitted up three gospel cars in which he and his wife travel and do missionary work.

ED WESTBROOK SPEAKS HERE SATURDAY

It is announced that Hon. Ed Westbrook, candidate for Congress, will speak in Commerce, Saturday, April 29th, at 7:30 p. m. The speaking will be on the public square.

Miss Rachel Roberts spent Sunday in Greenville.

Why Turn to East in Prayer?
 The scientist will tell you that praying with the face toward the east comes from ancient worship of the sun. Sun worshippers, starting out in the day's work to plant, hunt or ill, would turn toward the rising sun to pray for success.—Chicago American.

What the Census Tells

Every ten years our government spends millions of dollars to take a census of the people and what they are doing. It is a costly undertaking, but it is worth much more than it costs.

Important conclusions are gleaned from the figures gathered because the data is accurate and scientific. These facts become a basis for remedial legislation and for various movements for the uplift of the nation and the race.

Seven-eighths of all the money left by married men in America for their dependents is derived from life insurance.

Eighty-two per cent of the value of the combustible property is insured against fire, but only

Seven per cent of the economic value of human life is covered by life insurance.

Ninety per cent of the men engaged in active business fail to reach old age with a competence.

Nineteen out of every twenty persons fail to provide for their old age or for their families.

With the result that—

Eight million women are forced to earn a living.

Thirty-five per cent of the widows are in want.

Ninety per cent of American widowhood lacks life's common comforts.

Eighty-two per cent of the children of the country are forced to leave school before completing the eighth grade to aid in making a living for the family.—Let me solve your life insurance problems.

The Way to Happiness

Happiness is not a place. It is not a thing. It is a relation between things. We discover it most easily at the end of the path of daily unselfishness when we pass under the shining arch, "Help Another Every Day."

Do a Good Turn Daily

Help the blind or feeble man to cross the street. Carry the packages home for that little old woman. Give a pleasant smile to the clerk who waits upon you. You will feel better and they will. Greet the world with a smile and it will smile back. Christianity is founded on love to others. Attend the church of your choice Sunday and discover by daily effort what the true measure of Christianity involves.

If no other has a stronger claim upon you you will find a hearty welcome at

THE FIRST PRESBYTERIAN CHURCH

J. G. M. Ramsey, minister, and young men Boys' Day Sunday. Special sermon for boys at the morning hour. Special music. You are invited to be present.

ARE YOU Satisfied?

When a man or a woman gets hungry nothing on earth will satisfy them but food.

In this establishment nothing but "THE VERY BEST" is offered to the public.

At all times you will find here what you are seeking if it's good wholesome food at the right price. College Students Especially Invited to Call.
