## WRA Fun Festival Is Scheduled To Begin At 8 O'Clock Tonight

### Print Shop Receives Heidelberg Press

College print shop Tuesday received its new 12 X 18 inch press, which was highly recommended last year by delegates to the national Graphic Arts convention, and will be used for job work, which includes business office forms, departmental letterheads and envelopes and others.

The precision press is made of 40 per cent Swedish steel and is guaranteed to give half-line register for its life. It is distributed by Heidelberg Southern Sales, Houston.

Purchased to supplement the

present battery of equipment, the new machine was first used Wednesday to run off an inter-departmental order form. Five thousand copies of this form were made, 2,500 white and 2,500 canary.

All college print work is now done in the E.T. shop, with the exception of the year book. In the past year, the volume of work has more than doubled.

First model of the Heidelberg press was made in Germany in 1817. The new model has 40 ton compressional strength, centralized oiling system, automatic impression control, improved inking system and other refinements. It has a maximum speed of 4,000 pieces per hour, says Roy G. Clark, foreman and acting print shop manager.

Clark says that models of this machine have been in use in California for thirty years and are still in good condition. He also says that next year the shop hopes to add an automatic cylinder press to its battery.

In addition to Clark, the shop employs an operator-pressman, Milton L. Belflower and six student assistants, Charles Womack, Jerry Brewer, Joe Campbell, Britt Martin, Orville Hall and Becky Tucker. Of these assistants, Hall and Brewer have had other experience. Brewer worked for the Commerce Journal and the North Texas American, and Hall was employed in an offset printing company in Dainsfield.

The new Heidelberg was received in time for the print shop to help celebrate National Printing week, Jan. 13 to 15.

## 320 Persons To Donate Blood For Wounded Military Personnel

A total of 320 students and faculty members have registered to donate blood Jan. 14 and 15 for wounded military personnel in Korea.

The Future Farmers of America, Association of Women Students and Alpha Phi Omega are sponsors for the mobile unit from Ft. Worth. Registration began Tuesday morning and was scheduled to close Wednesday at 4:30 p.m.

Representatives of the unit

who were on campus Tuesday state that requirements include an age limit of 18 to 60. If a person is between the ages of 18 and 21, is not married and is not in the armed forces, he may donate blood after he has written consent of both parents. If he is between the ages of 18 and 21 is married, he will need the consent of his spouse.

A person who has had malaria within the last two years,

weighs less than 110 pounds or has ever had jaundice, has donated blood within the last two months will not be accepted.

All blood donated during the E.T. campaign will be sent to Armour laboratory in Ft. Worth, where it will be processed into plasma.

If the campus shows enough interest, the bank will return in the future. Red Cross representatives said.

Students showed their support of the blood bank as 320 signed up to donate blood for wounded military personnel in Korea. The mobile unit from Fort Worth will be on the campus Monday and Tuesday to take the blood. It will be at Whitley gym.

# Needed: 300 and More

By John Blackburn

One out of every seven would meet the quota.

At least 300 donations will be needed by the blood mobile unit which visits East Texas January 14 and 15. The unit is being sponsored jointly by the FFA and Alpha Phi Omega.

In a special assembly program Thursday morning the arrangements and procedures were explained, and a Korean War veteran appeared to explain and emphasize the need of blood donations at the ballfield.

The campaign is on. This occasion gives the students at East Texas an excellent opportunity to personally help the fighting men overseas who would die if immediate blood transfusions were not available to the wounded.

Think it over. You can help save the life of an American GI, maybe even someone you know.

# Not Much Longer Now

By John Blackburn

"Several students were dismissed from school this week for excessive cutting of classes. Others reached the danger point as the holidays approached." So read a story in the last issue of The East Texan.

With the present policy East Texas has toward cuts, it is truly uncalculated for that any student be dismissed for this reason. The administration is as liberal as it can be on this matter, and it tries to be as fair as possible with every student. The student has his own carelessness of actions to blame if he finds himself in this situation.

The average number of class periods of a course per semester is about 51. If the student sees fit to be absent more than ten times out of this 51 without an excuse, the college has to dismiss him. A student who cuts a class ten times a semester unnecessarily has no business in college. The end of this semester is drawing near. Don't waste the time, money and effort you have put forth to this date for the sake of a few extra hours of leisure time. BE CAREFUL!

Play Ping Pong

# Studying for Finals? Here's How

By Billy Aston

How should students study for final examinations? When this question was asked of students, almost all said, "I wish I knew." However, none of those interviewed, believed in last minute cramming. The following bits of advice from faculty members and students might prove helpful in preparation for final examinations.

Says Miss Adelle Clark, assistant professor of English, "Students should make intelligent use of notes. However, if the student has studied throughout the semester, he will not have a great deal of trouble with the final examination."

Advocates Bennett Head of Greenville, "Prepare for finals at least a week or two before the tests. Cramming is of little value, but if a student has neglected his studies all semester, it might help."

Says Inez Greenway of Farmerville, "It's too late to worry about finals now. James Trapp, business administration major of Greenville advises, "Play six games of ping pong immediately before the exams. It relaxes the mind."

Lindy Watkins says, "Don't study for all tests at one time." Says Belle Hayes, English major, "We should study a little every day near the end of the semester, but most of us will wait until the last minute and cram."

Joyce Davis, Dekalb business administration major says, "Don't cram! I know by experience."

Carolyn Latham, Farmerville sophomore, coolly says, "Just read over your notes and don't worry."

## 'Four Sixes' Pay Off With New Refrigerator

Four seven was the choice of most men in a game of chance, but C. Richard King, instructor in journalism, picked four sixes and they paid off with a brand new Fridgidaire. The guessing game, conducted by Knight-Chaney Furniture company, ended Christmas Eve.

King's estimate of 6666 inches of red and green ribbon wrapped around the ice maker missed the actual count by only two inches and won the box for him. Guesses from 350 persons registering their ranged from 200 to 114,000 inches.

A "quick of fate" kept Otha

Spencer, instructor in journalism and speech, from possibly getting a new bacon storing vehicle. The two men had gone into the place of business to pick up a package and joked about guessing. King told Spencer seven was lucky and was told in return to try sixes. He did, and now his South dormitory apartment has a new refrigerator to cover a faded spot left when one was moved out of his kitchen, and which has been a bone of contention for him. His checks for rent always note: For apartment without refrigerator. Spencer's wife has probably told him from now on to keep his numbers to himself.

# 'Mural Musings...

Things really started happening last Thursday night in the Field house as the first round of the girls' intramural basketball games got started.

Those who thought they had the games "figured" found out that it was mighty hard to figure girls' games. Pre-tournament favorite East Dorn fell 21-21 to a strong Binnion team Monday night.

The lowest and closest score of the contests was the East Dorn versus B.S.U. The final score was 9-8 in favor of East Dorn.

The Wesley Foundation reports that they have as many coaches as players. All of the boys come out to offer their services as side line coaches.

Scorekeepers are having a time keeping up with the Blackman twins, Lorene and Christine. In a game against the B.S.U. Tuesday night, one of the twins fouled. Not knowing which one fouled, Joann

Sparks, scorekeeper, asked who did it. With a solemn face, one twin pointed to the other and said, "Her."

Jody Miller for Binnion Hall is leading the scorers with 17 points in one game while Patsy Goodhart, BSU, has 19 in two games and Mary Lynn Little is pacing the social club league with 18 in two games.

"It was hilarious," was the way one player put it after a practice game between East Dorn and B.S.U. The game had to be stopped several times so that the players could laugh. Patsy Bricker Goodhart lost the pocket off her blouse in the game and the referee, Max Campbell, got knocked down in a mad scramble for the ball.

With the basketball tournament completed plans are being made for the ping pong tournament which is scheduled for February.

## Taylor Heads NAIB Tennis Committee

Joe Taylor, tennis coach and assistant professor of physical education for men, was recently appointed national chairman of the N.I.A.B. tennis advisory committee.

Taylor was football star for the East Texas Lions in 1935, 1936 and 1937, quarterbacking the 1937 championship team. Before coming to East Texas State as a student, he was with the Dallas Rebels baseball team of the Texas League, serving as trainer from 1931 to 1933.

Following his graduation in 1938, Taylor was assistant coach of the Gladewater high school football team, and in 1941 he was made head coach of the team. He joined the East Texas faculty as trainer and assistant mentor in 1948. This year he is tennis and track coach.

## Adamson and Arp Win Cage Tourney

Adamson and Arp walked off with championship trophies awarded by the East Texas high school cage tournament held in the Field house Dec. 27 and 28.

In the upper bracket including AA, AAA, and AAAA schools, Adamson of Dallas trounced Sherman 45 to 28 in the championship game. The sharpshooting Dallas crew had previously rolled by New Boston 60 to 32, Sulphur Springs 48 to 30 and Mt. Pleasant 45 to 25.

Arp, competing with A and B class schools, whalloped Hawkins 39 to 29 in the lower bracket final. Gaultman, Sabine and Avinger fell victims to the hustling Arp cagers in their drive to the top.

Hoelen, lanky Avinger center, and Richardson, captain of the Hawkins Hawks, shared high point honors with 96 points each.

## Football Players Open Gas Station

Tommy McCormack and Duncan Thompson, offensive and defensive ends for the 1951 championship Lion team, have recently opened the Sinclair service station at the corner of Live Oak and Mayo streets.

The station was the Balzou-Taylor service station. C. F. Batson was a student at East Texas State.

This station has gas pumps, oil racks, cold drinks and candy boxes and facilities for washing and greasing cars.

When asked how business was McCormack replied, "Well, we are depending on the students for most of our business and that has been pretty good."

## Cotton's Pickin's

Although it has not been publicized, there will be boxing matches in the field house tonight. Members of the Tyler Athletic club will be pitted against E.T.'s pugilistic talent, including middleweights John White and Roy Johns; bantam weight Arthur Tidwell; lightweight Bryant Clark; welterweight Bud Phillips; lightweight Peanuts Payne; and heavies Madison Knight and Cotton Martin. (Incidentally,

those of you who don't like my column might drop down to watch me suffer.)

This will give the team a warm up for the coming event—the Golden Gloves—which is to be held here the last of the month. All you boys who are interested in winning a golden trophy via the black eye, bloody nose route, there will be an inexperienced class for all weights in the regional meet. Also there will be a team trophy given to the team

Big Bynum Smith was the boy that controlled the backboard, gained possession of the ball the most and earned the top honors offered by this paper as Cager-of-the-Week. ## Taylor is Optimistic As Meet Draws Near

With East Texas first track meet drawing near, Coach Joe Taylor is optimistic over the way his track charges are hustling. Twenty-three men have thus far reported for practices.

The lead man in Taylor's attack is expected to be Chuck Holding, sophomore, high jumper and javelin and discus thrower. Last year he jumped feet 8.78 inches to lead the nation.

To team with Holding on the cinder paths will be such standbys as Froviro Gaddis, a senior who will run the half-mile, mile and relay, Bob Sloan, senior veteran of the 100 yard dash, 220 and sprint relay, Joe Allen, sophomore on the 440 and 1 mile relay, Marvin Brown, sophomore 100 yard dash and 3 hurdles, Robert Smith, senior, 3 hurdles and 440 yard relay, Charles Buchanan, junior, 440 and 1 mile relay, Madison Knight, sophomore, shot and discus, Guy Broussard, sophomore javelin thrower and handball, a junior.

Promising freshmen include Reginald Martin, Don Strong, Lee Roy Harvey, Donald Yates, Herman Musses, Pascual Vall, Jimmy Arnold and D. Harris. Taylor announced Wednesday

that a number of suits were available to freshmen who would like to try out for track.

## First Round Over In Girls' Basketball

Binnion Hall was scheduled to meet Town Team One Wednesday night for the independent crown in the intramural basketball tournament, while the Marpesa and Kaldishan clubs were battling for the social club championship.

The Marpesa Pacers, paced by Mary Lynn Little ran over the Theroonics club 21-13 on their way to the final and Let's Chicks club downed the Kallir club, 16-9.

## 7817 College Men Gain Deferments During Fall Term

A total of 7,817 college and university students in Texas have been deferred by state draft boards during the fall semester, Brig. Gen. Paul L. Wakefield, state Selective Service director, revealed today in a letter to the college and university presidents.

The state draft director in his communication to the educational administrators, said the "college student deferment program is now functioning smoothly on the whole." He expressed appreciation for the co-operation of colleges and universities.

"The continued success of the program will depend very materially on the way in which the colleges and universities police it," General Wakefield said the college and university presidents.

If a deferred student should leave school for any reason, or fail to pursue his courses satisfactorily, it is the obligation of the college to report that fact at once to the local board.

"No student must be allowed to drop out of school without the local board's knowledge and return to his community without continuing to enjoy a deferred status. This would seriously embarrass the local board.

"It would create ill will in the community toward the whole student program and might conceivably cause the local board to refuse to grant any further student deferments.

"The boards have cooperated very effectively in the plan so far, but they cannot be expected to keep on doing so if the deferment privilege is in any way abused.

I am sure we can count on your continued help in controlling the program and making it the success it deserves to be," General Wakefield's letter concluded.

He thought they were trying to make him the butt-end of a joke when he was asked to judge cigarette mildness with a mere puff of one brand and a quick sniff of another. Smokers throughout America have made the same decision!

It's the sensible test... the 30-Day Camel Mildness Test, which simply asks you to try Camels on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...
