Answers of Some Seniors Indicate That They "Lacked a Little Daring" in League

"Like a course in Spanish," Williams wrote with that acuteness which is characteristic of some of the seniors in E. T. For that is the way in which some of the questions are answered by about ninety out of ten seniors who filled out application blanks at the beginning of the present term, when asked to indicate what they needed to complete the necessary units for a degree. It is very pleasant indeed that they "like" certain courses, but perhaps they would more accurately if they "lacked" those courses.

THIS WEEK I want to urge a further interest in the Intramural Athletics of the College. For the past few weeks a basketball league has been in operation on the campus and in it there are five teams competing nightly. Each team is under the supervision of the coaching department of the College and each team has its own manager. The games are played on the College diamond and do not conflict with any of the College games. Coach John Windell is in charge of the league and he urges the support of the students. Every body come out and holler for your favorite team.

ATTENDANCE AT COLLEGE ON INCREASE

500 New Students Swell Enrollment for Spring Term

This new term of our Republic's record promises to be a record breaker in attendance. Reports from the Registrar's office are that approximately five hundred students have enrolled for the second term. Last term we had an attendance of one thousand one hundred and thirty-five. It is believed that this year's attendance will exceed one thousand and five hundred. With all these new students on the campus and those who will be with us in the summer, a stronger E. T. spirit is felt than ever before.

DEAN WRAY GIVES IMPRESSION OF THORNTON WILDER

Dean E. H. Wray had the pleasure of attending Mr. Thornton Wilder's lecture at Dallas on the evening of April 24. The author's novel, was brought to Dallas by the Council of Jewish Women as a part of their "Book of the Month" series. Mr. Wilder spoke upon his "Relation between Literature and Life" and he wished for his audience to realize that literature in their lives comes reverently at night so they could have joyful

ANNUAL MAY FESTIVAL BE CELEBRATED

LEAGUE OF SENIORS TO PARTICIPATE

THREE ON TRIP SOUTH

Drop Two to Lumberjacks, Split Series of Two Games With Bearkats

The Lions took their first road trip last week, playing five games while they were away, winning two and losing three for a percentage of 400 for the trip. Three games were played with the Stephen F. Austin Lumberjacks and two with the Sam Houston Teachers' College Bearkats.

The first game with Nacoches resulted in a score of 4-6 in favor of the Lumberjacks. The game went thirteen innings. The Bearkats had retired Gardner of the Lions hit a home run in the fifth. The Lions got three hits to the lumberjacks' ten but failed to make them count. Williams and Wright composed the battery for E. T.

The second game was won by the Lions with a score of 2-1. Jones, range 7, Twiter led the boys from Nacoches down with three hits, a very fine piece of club work.

The third and last game of this series went to the Lumberjacks by a score of 4-0. The Lions got a single from five hits while the Stephen F. Austin boys secured six.

The two game series with the Bearkats was split with the Lions winning the first game and the Bearkats winning the last one.

In the first game Jones pitched for the Lions, holding the Sam Houston aggregation to three runs while his team mates were gathering a total of thirteen. Faucett and Bledsoe were the batting star, Faucett getting four hits and Bledsoe four more.

The second game was to the Huntsville team by a score of 3-0. The Lions were held to four hits in this game with Faucett and Bledsoe getting them.

E. T. PARTY HEARS SCHUMAN-HEINK

A party of E. T. students and teachers journeyed to Texarkana Friday afternoon April 19 to hear Madame Schuman-Heink, famous singer, who gave a concert in the Bangor Theatre week before last. The party, including Messrs. Ivy, Galloway, Julia Rice, Corey, and Mr. Roy, returned Sunday the 20th, reporting a most enjoyable trip.

Election to be Held Saturday, May 11; Names of Candidates Yet to be Approved by Student Council

The last week in the E. T. campus has been one of extraordinary activity in student politics with the nomination of candidates by the club and the general election of officers by the student body. The election will be held on Saturday, May 11th. At that session students will be elected to fill the

LEGISLATURE APPROVES BILL FOR LIBRARY

QUANTY OF AT LEAST \$225,000, AND NOT LESS THAN \$275,000 IS ASSURED; COLLEGE BUDGET NOT YET SUBMITTED TO LEGISLATURE

Prospects for securing a library in the present (called Session of the Texas Legislature are good according to reports coming from Austin. The House Committee recently approved the requests of the College for a library-classroom building to cost \$225,000. The Senate Finance Committee had previously allowed in its recommendation a sum of \$275,000 for this building. The budget of the college has not yet been submitted to the legislature so as to yet get known what the action of the legislature will be with reference to these recommendations. It appears certain, however, that the library and classroom building will be granted possibly not less than \$225,000.00 and not more than \$275,000.00.

HILLIE BILLIE NINE DOWNS E. T. HERE LAST WEEK

Score for First Game is 11-7; Second Game Ends 9-8 In Favor of Visitors

The Daniel Baker Hillillies from Brownwood engaged the Lions in a pair of diamond contests on Friday and Saturday and succeeded in taking the measure of the Junior kings in both contests. These two victories leave the Hillillies firmly entrenched in the T. I. A. A. race with four games won against no defeats. They have defeated the Lions in a pair of games, but have fallen prey to them in two contests.

The Hillillies have won the football and basketball championships this year and set fair to make it a perfect season by annexing the diamond honors.

The score of the first game was 11-7 with the Lions on the short end. Daniel Baker started off strong, making two runs in the first inning. The East Texans came back in their half and went over one better, gathering a total of three in both halves. The lead was short lived, however, for the Daniel Baker team, beaten away from home, trailed through most of the game.

(Continued on Page 4)

LIBRARY HOURS TO BE CHANGED

The college library will be open from 7:30 in the morning to 7:30 in the evening, beginning April 29th. The time of the library hours has been extended in order to take care of the largely increased enrollment. Students will find it to their advantage to be able to consult and carry any work between the hours mentioned for study and reference work.

Hazel Baker spent the week end at her home in Sulphur Springs.

INTRAMURAL ATHLETICS UNDER WAY

PLANS ARE BEING MADE FOR BASKETBALL AND GOLF

Eighty Players Make Up Personnel of Various Class Teams; More Games to Come

The first round of intramural athletics on the campus has been completed and the last round that is played in the last half of this term started last Thursday. Much interest has been shown in these contests and some interesting games have been played. There are five clubs to make the league and these are Junior - Senior, Sophomore, Freshman, Sub-College, and Training School.

The standing of the league at this writing is as follows:

University	1	1	1	1	1
Junior-Senior	4	3	1	1	1
Sophomore	4	3	1	1	1
Freshman	4	3	1	1	1
Sub-College	4	3	1	1	1
Training School	4	3	1	1	1

The club taking averages are: (Continued on Page 3)

J. G. SMITH RECEIVES APPOINTMENT

To Be Deacon of Men on 1929-30 Cruise of Panama Flotilla

Mr. J. G. Smith, instructor of History and Dean of Men, has just received notification that he has been selected to fill the position of Deacon of Men on the Flotilla University in its 1929-30 voyage.

At yet Mr. Smith has not made definite announcement of his acceptance, but it is understood that, if at all possible, he will accept the offer.

In addition to his duties as Dean of Men, Mr. Smith will teach one or two classes in History, probably Greek and Roman. The classes will be made doubly interesting by the fact that the places and scenes visited will actually be seen by the students.

On the cruise, "students from all nine months the students from last year on the United States leave New York via the Floating University, a large ocean-going liner, and go completely around the world, stopping for land trips at all the points of interest. Credit for the appointment goes down with the universities of the land.

Smith has had ample experience in the duties that will be assigned to him. He has been an officer, and is entirely capable and worthy of filling the position. He is to be congratulated on his good fortune.

DEAN POTTS OF S. M. U. SPEAKS HERE THURSDAY

Dr. C. S. Potts, Dean of the Law School, will deliver a lecture on the subjects in chapel last Thursday morning.

Mr. Potts, who was brought to E. T. by Mr. Hall, talked of the influence of the old frontier upon American law and justice. He was, however, bringing his lecture up to the present time.

The talk was most interesting and instructive, not only to those who would make government a specialty, but for the average student as well. The College is fortunate in being able to secure Dr. Potts.

CLASSIC AND BALLET TRANCES AND MIXED FEATRE

PLANS ARE BEING MADE FOR BASKETBALL AND GOLF

Eighty Players Make Up Personnel of Various Class Teams; More Games to Come

Classic and Ballet Trances and Mixed Featres to be Given on the Campus

The story of Proserpine, Greek Goddess of the Underworld, will be the theme for the annual May Festival to be given on the campus Wednesday, May 1, at 8:30 p. m.

This festival is presented annually under the direction of Miss Margaret Rogers, who is assisted by Miss Lorenz Branson.

Miss Sara Louise Taylor will be Queen of May, and Dan Danbury will be Lord of May. Miss Gladie Lou Knight will take the part of Ceres, mother of Proserpine. About 200 students of the college and Training School will take part in the drama, which is mainly Greek and interpretative.

A short synopsis of the action follows: "Ceres the Goddess of Seasons (Adelle Lou Knight), Proserpine (Sara Louise Taylor) and her cruel maiden (Beryl Birdsong, Blanche DeForest, Sari Marshall, Mary Marshall, Jane Edge, Maurice Wheeler, Herma Taylor, and Geo Smith) dance in to welcome the Goddess with a pastoral ballet. The dance is interrupted by Pluto, God of the Underworld (O. C. Mulkey, who seizes Proserpine and carries her away in his chariot. When Ceres misses her daughter, she gives a dance of grief, made famous by Isadora Duncan.

A water nymph enters, bearing Proserpine's golden ring. Then (Continued on Page 4)

E. T. SPEAKERS AT PI KAPPA DELTA MEETING

Debaters, Orators, and Extemporary Speakers to Take Part in Meeting

Both the Boy's and Girls' Debating League will journey to Denton Thursday and Friday to take part in the Provincial Pi Kappa Delta meeting to be held there.

The chapters of the fraternity from Mississippi, Arkansas, Louisiana, and Missouri will be represented in the contest, which is to last through Saturday.

Students are allowed to send one boy's team and one girl's team an orator, and an extempore speaker. There will be rewards for the winners of each event.

In the debating speeches may be ten minutes long. The orations may be fifteen minutes long and (Continued on Page 4)

POLITICAL ACTIVITY BEGINS

ONE E. T. CAMPUS AS CLASSES NAME STUDENT CANDIDATES

President of the Student Council, Ford; President Athletic Council, Buford Williams and Preley Wilder, Editor-in-Chief of Locust, Gillian Mason and C. S. Thomas, Business Manager, Locust, Estill Clark and Hal Phillips, Editor-in-Chief of Locust, Woodrow Johnson, Editor-in-Chief of Locust, Woodrow Johnson. The election will be held May 11, at their present place of being held.

The officers elected will hold their positions for twelve months, taking up their duties with the beginning of the next fall term. These students holding offices at present retain their positions until the next fall.

SOMETHING TO TURN OVER IN YOUR MIND

(Continued)

In this day of modern science, psychology and free education, there has been created a tendency among modern youth of doubting all things—even divine creation.

It is a well known fact that many theories have been advanced explaining the origin of man, probably the most used today being the theory of Evolution as founded by Charles Darwin. The writer agrees with the above theory in many facts, but the theory as a whole is unsound because it leaves out the Divine Creation of the first cell. It is quite a simple matter to take something with life already infused in it and explain the existence of life, yet the scientists of today do not seem to give credit to the starting point. They say that Darwin's theory is not concerned with the origin of that spark of life, that they can only be bothered with tracing its development after having found it.

The thing most abused in this world today is gratitude. People are becoming too busy to think about the things their classes come from. They don't care. As long as they have the pleasures, they use them. They like the scientists, aren't bothered with their origin, but with their development.

The greatest sin in modern education is the manner in which it follows, the students, neglect the House of God. This is not intended to be a sermon. It is merely an article written in an attempt to stir a number of students on the campus, who seemed satisfied with scientific and philosophical explanations of life, to a little more thought. The students who appear to explain everything when tied down are forced to admit that in fact they know nothing of the original source of life as explained by science or philosophy. Neither can they explain what life is or where it is going.

OUR POLITICS

The College is entering into another campus election campaign. The officers to be elected are President of Student Council; Vice-President of the Student Council; Editor of the Green Texan, and Business Manager of East Texas. The election is not one of class favoritism nor a popularity contest. These are the most responsible offices of the campus and largely determine the success or failure of next College year, and it is either, but because he has ability. The student must vote for a candidate not because he is a friend of his, but because he can best meet the responsibilities of the office.

The responsibility of an officer by direct ratio determines the responsibility of his electors. And it is the duty of the student body to advance its candidate by virtue of his capacity to hold the office—not by enriching the ability of another nominee.

By misjudging in a campaign the college will elect a person about whose ability there is a reasonable question, often chosen in a personal malice, without consideration of his experience or efficiency, and the election will be turned into a choice of the lesser of evils. That kind of a campaign elects a man for what he hasn't done. An operational election indicates an officer for whom he has shown he can do.

Leave prejudice out of the present campaign and put the most efficient men in office.

GEOLOGY

(Continued)

How many students in the East Texas State Teachers College know that there is a Geology Department in this institution and what it is? I know of seven students who have been "exposed" to Geology this year. They are fully aware of the fact that there is such a study, that it is a laboratory science fully accredited with the University of Texas, that field trips are pleasure trips, and that such fossils as brachiopods, cephalopods, sharks' teeth, echinoderms, gastropods, and others with such simple (1) named fossils be found near Commerce.

Geology is the science that treats of the earth and its inhabitants as revealed in the rocks, and, therefore, deals with its constitution and structure; with the operation of such forces as winds, glaciers, volcanoes, and climates which lead to its present condition, and with the occurrence and evolution of the life. Geology calls to its aid astronomy, chemistry, physics, and biology. It is a composite science making use of the physical sciences in unravelling the complicated history and structure of the earth. The most interesting phase is historical geology dealing with the evolution of the continents, ocean and life of the past. It traces out as accurately as our present knowledge will permit, the changes through which the earth has passed. It endeavors to gather history or evolutionary changes which many classes of animals and plants have undergone and considers the cause of these changes.

Geology is one of the most interesting subjects in the modern college curriculum. Then why is this department of science in E. T. S. Teachers College has been offered in full laboratory form for only one year and so few people know what it is or realize its value.

Under the leadership of one of the most human and broadminded professors on the campus the year's work has

The Other Campuses

SOUTHWESTERN HAS GOOD DEBATE RECORD

A total of fifty-two debates, only fifteen defeats, and no losses on the part of the record of the Southwestern debate teams for the past season. Seven of the ten members of the Squad, Frank Wright, Horner, Moore, Manigault, Cleveland, and Barger, have been members of the Southwestern before. Porter, Baker, and Dresser were the new debaters this year from last year's team.

The local team won all four pre-season contests, the women debates with Friend's University, a men's debate with Kansas Wesleyan, Salina, and a men's debate with Phillips University, Emporia, Southwestern Collegian.

OLD PAPER TELLS OF WASHINGTON'S DEATH

Containing an account of George Washington's death and burial, and accounts of Negro Jane sales, copy of the Union Times, with a date line of Saturday, January 4, 1800, was on exhibit at the Capitol grounds in the service station of Frank Casper, service station, on the corner of the main building in Austin to see about securing some kind of copyright that would prevent the control reproduction of the paper.

The paper was printed at Kingsport, Ulster County, New York, and was made up with black columns, rules between, and the recent death of the first president. Names of the ball players were given in a diagram that showed where each stood, with the word "casket" set up between the rows of names. The order of the ceremony was given, with a valuable description of the proceedings.

According to the owner, a photographic copy would be secured by the library should he secure the publication protection that he seeks.—Daily Texas.

C. I. A. TO HAVE SHORT COURSE

Approximately 2,000 delegates will represent twenty-two counties and will attend the Short Course to be held at C. I. A. on May 2. The morning program includes the following events: From 9 to 11 o'clock an inspection of the departments of the college will be made. President J. H. Hubbard will address the convention at 11:15, and at 12:15 lunch will be served to the delegates in the college dining rooms.

At 1:30 an original one-act play will be presented by members of the Speech Department. Miss Jennie Camp, district home demonstration agent from the Extension Service Department of A. & M. College will give a lecture on "Health Foundations for Lovable Interiors." Member of the Home Economics Department of the college will talk on problems of child training during the afternoon.

At 3:00 o'clock a musical program will be presented by the C. I. A. Music Department.—Louis-O.

UNIVERSITY LOAN

Approximately three thousand pocket libraries are sent out from the University loan library each month. These packages cover all types of subjects, ranging from special program suggestions for school children's exercises to University literature on philosophical subjects for the use of study clubs, and from material on Textile literature, and material on law and on the culture of America and even foreign countries.

The success of the work is testified by the letters of appreciation which are daily received from teachers, librarians, school children, and club women, according to Miss Mary Lala Barrett, acting chief.

"Thanks for the promptness with which you sent me the material I asked for, and 'Your pack age library is an invaluable source of information on almost any subject,' are the most frequent comments passed of the library make the service. Miss Barrett said: 'I consider your loan arrange-

ment one of the most splendid enterprises of the University, and I avail myself of it and certainly nothing I enjoy more or find more profitable.'—Miss Barrett.

"I consider your loan arrangement one of the most profitable and enjoyable. The students were taught to think and judge with an open mind."

Miss J. J. Ferguson, a student who had a well rounded four-year's course without a year's study of Geology, for it is an integral part of all general education and culture. What could be more interesting than this great world in which we live?

Chips

MIGNONETTE

The pendulum swings back and forth. The fates of men ride high, and he who rides the full of the moon is sure to be once in the sky.—BOA.

GYPSE BLOOD

A long road and winding road That leads away and away, The cardinal will call and the Spring's That will not let me stay.

The varabon's song is the happy song. The life of the spout is free— I must up and go to the hills again.

To the hills, or the plains, or the sea.—REONE.

VOICE OF DUTY

The voice of duty calls Me with a voice that impalls I love them, but I must part With the vices all around I call them my dear friends They call me their clown.—REMOM.

AFTER MATHS

Just a few smiles, Just a few tears, Just a few memories Only to carry through the years.

Just a little regret, Just a little pleasure, Out of the things that used to be. To think of at leisure. It doesn't matter much About things that used to be. Only a few bridges. On the road to REMOM.

SCREEN'S BUSIEST CO-STARS HERE IN NEW COMEDY

Cody and Pringle Reprise Laugh Hit in "The Baby Cyclone"

The Low Cody-Allyn Pringle team has been about the busiest pair of co-stars on the screen.

As soon as Cody wound up his recent, they were back in the tour and Miss Pringle resumed their film partnership, filmed "Beau Broadway" and then plunged into "The Baby Cyclone." Metro-Goldwyn-Mayer's hilarious filmation of the famous George M. Cohan stage play, at the Hippodrome Theatre Wednesday and Thursday Eddie Stonehard was engaged to wield the megaphone, and Cedric Gibbon designed a spectacular series of modernistic settings, in the spirit of New York of today, and set them against the celebrated footlight success was launched as one of the most ambitious chapeau seasons of production.

It is a sophisticated comedy based on a satirical view of New York society, and the picture is made in a household and the bump played in the path of a truck by a small Polka-pone, Cody plays a wealthy chum who loses his fiancee. Miss Pringle, through the picture, and only gets her part after an amazing series of incidents and trials, and finally, he gets a black eye.

"THE ROAD TO RUIN"

The reckless abandon with which the jam-crunch youth of today find themselves into the mad chase after the pleasure of "good time" is vividly depicted in "The Road to Ruin" which will open at the Hippodrome Theatre Monday.

Jazz an pin, sex and sensuality, cars garaged on shady lanes, sporty roadsters, wild stars, and the picture, are among the highlights of this modern drama. The picture graphically illustrates the terrible results of parental neglect and ignorance in the handling of modern youth.

The most splendid enterprises of the University, and I avail myself of it and certainly nothing I enjoy more or find more profitable. Miss Barrett said: "I consider your loan arrangement one of the most profitable and enjoyable. The students were taught to think and judge with an open mind."

Miss J. J. Ferguson, a student who had a well rounded four-year's course without a year's study of Geology, for it is an integral part of all general education and culture. What could be more interesting than this great world in which we live?

FATHER OF FRED MORGAN DIES AT MOUNT PLEASANT

Mr. Walter Morgan, father of Fred Morgan, E. T. student, suddenly dropped dead in Mt. Pleasant early Saturday morning.

Mr. Morgan had been in poor health for several weeks, but had not given up his duties with the railroad, with whom he worked. The attack was very sudden. Mr. Morgan passed away while in the freight depot in Mt. Pleasant.

The deceased was well known and highly respected in Commerce and it was with real regret that news of his death was received. The many friends of Fred, who is well known on the E. T. campus, extend to him their sincere sympathy.

HARDING WILL LECTURE HERE FRI, MAY TENTH

The faculty and students of the college are delighted because of the return to this institution on May tenth of Doctor A. M. Harding.

Professor of Mathematics and Astronomy in the University of Arkansas at Fayetteville. Doctor Harding has been here several times and his lectures are always interesting and highly profitable. His lectures deal with astronomy, which is one of the oldest sciences known to man.

Doctor Harding's lectures will be given on Friday, May 10th, at ten o'clock in the morning, and at three o'clock in the afternoon. The students and faculty, as well as the members of the institution, are cordially invited to hear him.

Each club in the league has its own manager and among those present are such men as Bob Foster, nee John McGraw. Mgr. of the Junior-Senior club and the leaders of the league. The Sophs are led by none other than Matherly, the Connie Mack of E. T. Matherly is the manager of the Fresh entrant. For the Sub-College, Boeder has the helm and for the Training School, Brazner, otherwise known as Lena Blakelburne, is the skipper. A call has been sounded that if there should happen to be anyone else that would like to play and is not now on a team, come out and join the club representing your class. Choice contracts are being awarded every day by the different managers and price is no object.

There are eighty members on these five teams and all have been able to take part in practically every game so far. There are an names on the schedule for this last half. Announcements will be put Board as to dates they will be played. On account of the College team and the way the dates are tentative and will have to be played when it is possible and most suitable.

A trophy is to be given the winning team and this handsome cup is presented by the office of the Secretary of the College, Mr. L. I. Smith. The club winning the award this year will have their name engraved on the cup and may keep the cup until they are defeated, at which time the cup will become the property of the winning team.

These games all have pep and will afford some good clean sport for an afternoon and all students that have not been coming out are urged to do so at the next game.

DEAN WRAY

(Continued from Page 1)

experiences of their reading. The novel is a teacher of French at Lawrenceville School, New Jersey, a boys' preparatory school, primarily for Princeton, and during the course of the lecture, he told of the beauty of the place and also some of the ways in which he got his ideas for the characters in "The Bridge of San Luis Rey".

Mr. Wray talked with the novelist after the lecture and they found common ground in their friendship with William L. Phelps. According to Dean Wray, Mr. Wilder is highly tensioned and nervous, but a polished gentleman, pure-minded and cultured.

ENGAGE BOBCATS IN TRACK MEET

The Lion thinly-clads are working long, hard and consistently in preparation for the T. I. A. A. meet that is to be held in San Marcos on May 10th and 11th. About twenty men are going through the paces and every effort is being put forward to develop a strong contingent. Decidedly more interest has been shown in track this year than in past years, and the results to date have been gratifying. The Lion tracksters have emerged victorious in their three engagements thus far, and are con-

fidant of winning some laurels at the all-T. I. A. A. meet. While "hope of winning the meet is a far-fetched dream, it is possible, but when we think that E. T. has never made a single point in a T. I. A. A. meet, one can figure for himself how improbable it is.

A look into some of the marks made by the Lion, however, may give some idea of the progress made by them, and their likelihood of placing in the coming meet.

Duncan	5-11	6-25
Bronx jump		
Duncan	19-11	6-25
Shot put		
Stuckron	36-4	42-4
Duncan		
Discus		
Stuckron	112-0	134-8
Javelin		
Stuckron	103-4	125-8

The above marks are those that have actually been made in competition, and can be depended on consistently. In practice, practically all of them have been beaten. Track facilities here do not give the boys a chance, however, to perform consistently, as no two days finds the track in the same condition, and after rains two or three days are lost waiting for the track to get dry enough to use. President Whitley has offered some encouragement along this line, and we may expect a real track within the next year or two. Then the student body will be given the privilege of seeing their team in action. Until we get a track here, practically all the meets must be held foreign soil.

Next Saturday the track team will hold a regular meet in competition among themselves; this will be the only opportunity of the year for the students to see the boys in action. All events will be run off, and some heavy competition will be seen. The meet will start at 11.

GREETINGS

To All Spring Entrants

Remember, "old gang," we are depending upon you to inform these new students of our location and our method of doing business.

Everything next except the bald spot on the proprietor's dome.
